Forward Looking Statements

Certain statements made during this presentation, as well as included in this document, are not historical facts and may be considered “forward-looking statements” and are based on estimates, assumptions and projections which management believes are reasonable but by their nature subject to risks and uncertainties. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements.

The reasons which could cause actual results and/or financial condition to differ materially from those suggested by such forward-looking statements include but are not limited to those discussed or identified from time-to-time in AFG’s filings with the Securities and Exchange Commission, including the annual report on Form 10-K and the quarterly reports on Form 10-Q. We do not promise to update such forward-looking statements to reflect actual results or changes in assumptions or other factors that could affect these statements.

Core net operating earnings is a non-GAAP financial measure which sets aside items that are generally not considered to be part of ongoing operations, such as net realized gains and losses, discontinued operations, as well as other significant items that are not able to be estimated with reasonable precision, or that may not be indicative of ongoing operations. AFG believes that this non-GAAP measure is a useful tool for investors and analysts in analyzing ongoing operating trends of AFG.

Investment Portfolio Information and Positioning

	AFG Consolidated
Approximate Average Duration – Fixed Maturities as of December 31, 2021	2.0 years
Annualized yield on available for sale fixed maturities	
Quarter ended 12/31/2021:	
• Net of investment expenses ¹	2.74%
• Tax equivalent, net of investment expenses ²	2.86%

¹ Annualized yield is calculated by dividing investment income for the quarter by the average cost over the quarter. Average cost is the average of the beginning and ending quarter asset balances.

² Adjusts the yield on tax-exempt bonds to the fully taxable equivalent yield.

Positioned to benefit in a rising rate environment:

1. Insurance company's fixed maturities duration of approximately 2 years is the lowest in recent history
2. Cash and floating rate securities account for nearly 30% of insurance company's investment portfolio
3. Parent company cash and short duration fixed maturities of approximately \$1.9 billion at 12/31/21

We returned \$2.7 billion of capital to shareholders in 2021.

February 2022 Update

- In addition to excess capital we expect to generate in 2022, we could significantly increase the portion of our excess capital available for distribution to shareholders by redeeming a portion of our approximately \$2 billion in outstanding long-term debt.
- For example, if we were to call our \$425 million outstanding face amount of 3.50% Senior Notes due August 2026 at the make-whole price of approximately 105% of face, this would free up approximately \$950 million of excess capital available for return to shareholders in the form of share repurchases or special dividends.¹

¹ Portion of excess capital available for distribution without reducing long-term debt or exceeding our most restrictive debt to capital guideline.

² The ratio is calculated by dividing the principal amount of AFG's long-term debt by its total capital, which includes long-term debt and shareholders' equity (excluding unrealized gains related to fixed maturity investments).

Intelligent Use of Excess Capital

2021 Capital Management

- Returned \$2.7 billion of capital to shareholders

Protecting What Matters

We sustain AFG's business success by effectively managing risk—financial, social, environmental—to help create stability for our customers and deliver value to our shareholders.

We focus our corporate responsibility and sustainability strategies in four primary areas where AFG can achieve the most direct and substantial results:

- Operating our business with integrity and managing financial risk
- Giving back to our communities and promoting social opportunity
- Creating a welcoming, rewarding and safe place to work and build a career *Be here. Be great.*
- Managing environmental risk and operating sustainably

for the *greater* good
