

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the Quarterly Period Ended September 30, 2025

or

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from ____ to ____

Commission File No. 1-13653

AMERICAN FINANCIAL GROUP, INC.

Incorporated under the Laws of Ohio

IRS Employer I.D. No. 31-1544320

301 East Fourth Street, Cincinnati, Ohio 45202

(513) 579-2121

Securities Registered Pursuant to Section 12(b) of the Act:

<u>Title of Each Class</u>	<u>Trading Symbol(s)</u>	<u>Name of Each Exchange on Which Registered</u>
Common Stock	AFG	New York Stock Exchange
5.875% Subordinated Debentures due March 30, 2059	AFGB	New York Stock Exchange
5.625% Subordinated Debentures due June 1, 2060	AFGD	New York Stock Exchange
5.125% Subordinated Debentures due December 15, 2059	AFGC	New York Stock Exchange
4.50% Subordinated Debentures due September 15, 2060	AFGE	New York Stock Exchange

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the Registrant has submitted electronically, every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months. Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer
Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 1, 2025, there were 83,403,572 shares of the Registrant's Common Stock outstanding, excluding 14.9 million shares owned by subsidiaries.

C. Segments of Operations	J. Shareholders' Equity
D. Fair Value Measurements	K. Income Taxes
E. Investments	L. Contingencies
F. Derivatives	M. Insurance
G. Managed Investment Entities	

A. Accounting Policies

Basis of Presentation The accompanying consolidated financial statements for American Financial Group, Inc. and its subsidiaries ("AFG") are unaudited; however, management believes that all adjustments (consisting only of normal recurring accruals unless otherwise disclosed herein) necessary for fair presentation have been made. The results of operations for interim periods are not necessarily indicative of results to be expected for the year. The financial statements have been prepared in accordance with the instructions to Form 10-Q and, therefore, do not include all information and footnotes necessary to be in conformity with U.S. generally accepted accounting principles ("GAAP").

Certain reclassifications have been made to prior periods to conform to the current year's presentation. All significant intercompany balances and transactions have been eliminated. The results of operations of companies since their formation or acquisition are included in the consolidated financial statements. Events or transactions occurring subsequent to September 30, 2025, and prior to the filing of this Form 10-Q, have been evaluated for potential recognition or disclosure herein.

The preparation of the financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Changes in circumstances could cause actual results to differ materially from those estimates.

Fair Value Measurements Accounting standards define fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date. The standards establish a hierarchy of valuation techniques based on whether the assumptions that market participants would use in pricing the asset or liability ("inputs") are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect AFG's assumptions about the assumptions market participants would use in pricing the asset or liability. Other than the purchase price allocation related to its acquisition of Radion Insurance Holdings, LLC (see *Note B — "Acquisition of Business"*), AFG did not have any significant nonrecurring fair value measurements in the first nine months of 2025.

Investments Fixed maturity securities classified as "available for sale" are reported at fair value with unrealized gains and losses included in accumulated other comprehensive income ("AOCI") in AFG's Balance Sheet. Fixed maturity securities classified as "trading" are reported at fair value with changes in unrealized holding gains or losses during the period included in net investment income. Mortgage loans (net of any allowance) are carried primarily at the aggregate unpaid balance.

Realized gains or losses on the disposal of fixed maturity securities are determined on the specific identification basis. Premiums and discounts on fixed maturity securities are amortized using the effective interest method. Structured securities subject to prepayment risk are amortized over a period based on estimated future principal payments, including prepayments. Prepayment assumptions are reviewed periodically and adjusted to reflect actual prepayments and changes in expectations.

Equity securities are reported at fair value with holding gains and losses generally recorded in realized gains (losses) on securities. However, AFG records holding gains and losses on certain securities classified at purchase as "fair value through net investment income" in net investment income.

Limited partnerships and similar investments are generally accounted for using the equity method of accounting. Under the equity method, AFG records its share of the earnings or losses of the investee based on when it is reported by the

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

investee in its financial statements rather than in the period in which the investee declares a dividend. AFG's share of the earnings or losses from equity method investments is generally recorded on a quarter lag due to the timing of the receipt of the investee's financial statements. AFG's equity in the earnings (losses) of limited partnerships and similar investments is included in net investment income.

Credit Losses on Fixed Maturity Investments When a decline in the value of an available for sale fixed maturity is considered to be other-than-temporary at the balance sheet date, an allowance for credit losses (impairment), including any write-off of accrued interest, is charged to earnings (included in realized gains (losses) on securities). If management can assert that it does not intend to sell the security and it is not more likely than not that it will have to sell it before recovery of its amortized cost basis, then the impairment is separated into two components: (i) the allowance related to credit losses (recorded in earnings) and (ii) the amount related to all other factors (recorded in other comprehensive income). The credit-related portion is measured by comparing a security's amortized cost (net of any existing allowance) to the present value of its current expected cash flows discounted at its effective yield prior to the charge. The allowance is limited to the difference between a security's amortized cost basis and its fair value. Subsequent increases or decreases in expected credit losses are recorded immediately in net earnings through realized gains (losses). If management intends to sell an impaired security, or it is more likely than not that it will be required to sell the security before recovery, an impairment is recorded in earnings to reduce the amortized cost of that security to fair value.

Credit Losses on Financial Instruments Measured at Amortized Cost Credit-related impairments for financial instruments measured at amortized cost (mortgage loans, premiums receivable and reinsurance recoverables) reflect estimated credit losses expected over the life of an exposure or pool of exposures. The estimate of expected credit losses considers historical information, current information, as well as reasonable and supportable forecasts, including estimates of prepayments. Expected credit losses, and subsequent increases or decreases in such expected losses, are recorded immediately through net earnings as an allowance that is deducted from the amortized cost basis of the financial asset, with the net carrying value of the financial asset presented on the balance sheet at the amount expected to be collected.

Derivatives Derivatives included in AFG's Balance Sheet are recorded at fair value. Changes in fair value of derivatives are included in earnings unless the derivatives are designated and qualify as highly effective cash flow hedges. AFG's derivatives that do not qualify for hedge accounting under GAAP consist primarily of components of certain fixed maturity securities (convertible fixed maturities and interest-only and principal-only mortgage-backed securities ("MBS")) and a total return swap related to its deferred compensation obligations to employees.

To qualify for hedge accounting, at the inception of a derivative contract, AFG formally documents the relationship between the terms of the hedge and the hedged items and its risk management objective. This documentation includes defining how hedge effectiveness is evaluated at the inception date and over the life of the derivative.

Changes in the fair value of derivatives that are designated and qualify as highly effective cash flow hedges are recorded in AOCI and are reclassified into earnings when the variability of the cash flows from the hedged items impacts earnings. When the change in the fair value of a qualifying cash flow hedge is included in earnings, it is included in the same line item in the statement of earnings as the cash flows from the hedged item. AFG uses interest rate swaps that are designated and qualify as highly effective cash flow hedges to mitigate interest rate risk related to certain floating-rate securities.

Goodwill Goodwill represents the excess of cost of subsidiaries over AFG's equity in their underlying net assets at the date of acquisition. Goodwill is not amortized, but is subject to an impairment test at least annually. An entity is not required to complete the quantitative annual goodwill impairment test on a reporting unit if the entity elects to perform a qualitative analysis and determines that it is more likely than not that the reporting unit's fair value exceeds its carrying amount.

Reinsurance Amounts recoverable from reinsurers are estimated in a manner consistent with the claim liability associated with the reinsured policies. AFG reports as assets (i) the estimated reinsurance recoverable on paid and unpaid losses, including an estimate for losses incurred but not reported, and (ii) amounts paid or due to reinsurers applicable to the unexpired terms of policies in force. Payable to reinsurers includes ceded premiums due to reinsurers, as well as ceded premiums retained by AFG under contracts to fund ceded losses as they become due. AFG also assumes reinsurance from other companies. Earnings on reinsurance assumed is recognized based on information received from ceding companies.

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

Deferred Policy Acquisition Costs (“DPAC”) Policy acquisition costs (principally commissions, premium taxes and certain underwriting and policy issuance costs) directly related to the successful acquisition or renewal of an insurance contract are deferred. DPAC is limited based upon recoverability without any consideration for anticipated investment income and is charged against income ratably over the terms of the related policies. A premium deficiency is recognized if the sum of expected claims costs, claims adjustment expenses and unamortized acquisition costs exceed the related unearned premiums. A premium deficiency is first recognized by charging any unamortized acquisition costs to expense to the extent required to eliminate the deficiency. If the premium deficiency is greater than unamortized acquisition costs, a liability is accrued for the excess deficiency and reported with unpaid losses and loss adjustment expenses.

Managed Investment Entities A company is considered the primary beneficiary of, and therefore must consolidate, a variable interest entity (“VIE”) based primarily on its ability to direct the activities of the VIE that most significantly impact that entity’s economic performance and the obligation to absorb losses of, or receive benefits from, the entity that could potentially be significant to the VIE.

AFG manages, and has investments in, collateralized loan obligations (“CLOs”) that are VIEs (see *Note G — “Managed Investment Entities”*). AFG has determined that it is the primary beneficiary of these CLOs because (i) its role as asset manager gives it the power to direct the activities that most significantly impact the economic performance of the CLOs and (ii) through its investment in the CLO debt tranches, it has exposure to CLO losses (limited to the amount AFG invested) and the right to receive CLO benefits that could potentially be significant to the CLOs.

Because AFG has no right to use the CLO assets and no obligation to pay the CLO liabilities, the assets and liabilities of the CLOs are shown separately in AFG’s Balance Sheet. AFG has elected the fair value option for reporting on the CLO assets and liabilities to improve the transparency of financial reporting related to the CLOs. The net gain or loss from accounting for the CLO assets and liabilities at fair value is presented separately in AFG’s Statement of Earnings.

The fair values of a CLO’s assets may differ from the separately measured fair values of its liabilities even though the CLO liabilities only have recourse to the CLO assets. AFG has set the carrying value of the CLO liabilities equal to the fair value of the CLO assets (which have more observable fair values) as an alternative to reporting those liabilities at a separately measured fair value. CLO earnings attributable to AFG’s shareholders are measured by the change in the fair value of AFG’s investments in the CLOs and management fees earned.

At September 30, 2025, assets and liabilities of managed investment entities included \$49 million in assets and \$41 million in liabilities of a temporary warehousing entity that was established to provide AFG the ability to form a new CLO. At closing, all warehoused assets will be transferred to the new CLO and the liabilities will be repaid.

Unpaid Losses and Loss Adjustment Expenses The liabilities stated for unpaid claims and for expenses of investigation and adjustment of unpaid claims represent management’s best estimate and are based upon (i) the accumulation of case estimates for losses reported prior to the close of the accounting period on direct business written; (ii) estimates received from ceding reinsurers and insurance pools and associations; (iii) estimates of unreported losses (including possible development on known claims) based on past experience; (iv) estimates based on experience of expenses for investigating and adjusting claims; and (v) the current state of the law and coverage litigation. Establishing reserves for asbestos, environmental and other mass tort claims involves considerably more judgment than other types of claims due to, among other things, inconsistent court decisions, an increase in bankruptcy filings as a result of asbestos-related liabilities, novel theories of coverage, and judicial interpretations that often expand theories of recovery and broaden the scope of coverage.

Loss reserve liabilities are subject to the impact of changes in claim amounts and frequency and other factors. Changes in estimates of the liabilities for losses and loss adjustment expenses are reflected in the statement of earnings in the period in which determined. Despite the variability inherent in such estimates, management believes that the liabilities for unpaid losses and loss adjustment expenses are adequate and reasonable.

Debt Issuance Costs Debt issuance costs related to AFG’s outstanding debt are presented in its Balance Sheet as a direct reduction in the carrying value of long-term debt and are amortized over the life of the related debt using the effective interest method as a component of interest expense. Debt issuance costs related to AFG’s revolving credit facility are included in other assets in AFG’s Balance Sheet.

Leases Leases for terms of longer than one year are recognized as assets and liabilities for the rights and obligations created by those leases on the balance sheet based on the present value of contractual cash flows.

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

At September 30, 2025, AFG has a \$224 million lease liability included in other liabilities and a lease right-of-use asset of \$201 million included in other assets compared to \$232 million and \$212 million, respectively, at December 31, 2024.

Premium Recognition Property and casualty premiums are earned generally over the terms of the policies on a pro rata basis. Unearned premiums represent that portion of premiums written, which is applicable to the unexpired terms of policies in force. On reinsurance assumed from other insurance companies or written through various underwriting organizations, unearned premiums are based on information received from such companies and organizations.

Income Taxes Deferred income taxes are calculated using the liability method. Under this method, deferred income tax assets and liabilities are determined based on differences between financial reporting and tax bases and are measured using enacted tax rates. A valuation allowance is established to reduce total deferred tax assets to an amount that will more likely than not be realized. The effect of a change in tax rates on deferred tax assets and liabilities is recorded in net earnings in the period that includes the enactment date.

AFG recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained under examination by the appropriate taxing authority. Interest and penalties on AFG's reserve for uncertain tax positions are recognized as a component of tax expense.

Stock-Based Compensation All share-based grants are recognized as compensation expense on a straight-line basis over their vesting periods based on their calculated fair value at the date of grant.

AFG records excess tax benefits or deficiencies for share-based payments through income tax expense in the statement of earnings. In addition, AFG accounts for forfeitures of awards when they occur.

Benefit Plans AFG provides retirement benefits to qualified employees of participating companies through the AFG 401(k) Retirement and Savings Plan, a defined contribution plan. AFG makes all contributions to the retirement fund portion of the plan and matches a percentage of employee contributions to the savings fund. Company contributions are expensed in the year for which they are declared. AFG and many of its subsidiaries provide health care and life insurance benefits to eligible retirees. AFG also provides postemployment benefits to former or inactive employees (primarily those on disability) who were not deemed retired under other company plans. The projected future cost of providing these benefits is expensed over the period employees earn such benefits.

Earnings Per Share Although basic earnings per share only considers shares of common stock outstanding during the period, the calculation of diluted earnings per share includes the following adjustments to weighted average common shares related to stock-based compensation plans: third quarter of both 2025 and 2024 — none; first nine months of 2025 — less than 0.1 million and 2024 — 0.1 million.

There were no anti-dilutive potential common shares for the third quarter or the first nine months of 2025 or 2024.

Statement of Cash Flows For cash flow purposes, "investing activities" are defined as making and collecting loans and acquiring and disposing of debt or equity instruments, property and equipment and businesses. "Financing activities" include obtaining resources from owners and providing them with a return on their investments, borrowing money and repaying amounts borrowed. All other activities are considered "operating." Short-term investments having original maturities of three months or less when purchased are considered to be cash equivalents for purposes of the financial statements.

B. Acquisition of Business

In the third quarter of 2025, AFG acquired the 52% of Radion Insurance Holdings, LLC ("Radion") that it did not previously own for \$7 million in cash, making Radion a wholly-owned subsidiary. Radion, a managing general underwriter, specializes in healthcare coverage for small and midsize businesses. At acquisition, in accordance with accounting guidance, the existing investment in Radion (previously accounted for using the equity method of accounting) was remeasured to fair value resulting in a \$3 million realized gain. The acquisition also resulted in the recognition of \$5 million of amortizing intangible assets related to technology and \$22 million in goodwill (see *Note H — "Goodwill and Other Intangibles"*).

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

C. Segments of Operations

AFG manages its business as two segments: Property and casualty insurance and Other, which includes holding company assets and costs.

AFG reports its property and casualty insurance business in the following Specialty sub-segments: (i) Property and transportation, which includes physical damage and liability coverage for buses and trucks and other specialty transportation niches, inland and ocean marine, agricultural-related products and other commercial property coverages, (ii) Specialty casualty, which includes primarily excess and surplus, executive and professional liability, general liability, umbrella and excess liability, specialty coverages in targeted markets, customized programs for small to mid-sized businesses and workers' compensation insurance, and (iii) Specialty financial, which includes risk management insurance programs for lending and leasing institutions (including equipment leasing and collateral and lender-placed mortgage property insurance), fidelity and surety products and trade credit insurance. AFG's reportable segments and their components were determined based primarily upon similar economic characteristics, products and services. Historically, AFG reported the results of its internal reinsurance facility (that assumes business from several of AFG's Specialty property and casualty businesses) in an Other Specialty sub-segment. Beginning in 2025, to be consistent with how the Chief Operating Decision Makers ("CODMs") currently view and evaluate AFG's Property and casualty sub-segments, the internal reinsurance results are included within the same sub-segments as the ceding businesses. The CODMs believe this presentation better reflects the performance of the underlying operating businesses and enhances the financial reporting. Information from prior periods has been recast for consistent presentation. The impacts of all intercompany transactions between segments have been eliminated.

AFG's CODMs are its Co-CEOs. The CODMs evaluate the performance of the Property and casualty insurance segment based on return on equity and underwriting profit. The CODMs use this measure to allocate resources and make capital decisions.

Sales of property and casualty insurance outside of the United States represented 4% and 3% of AFG's revenues in the third quarter of 2025 and 2024, respectively, and 4% in both the first nine months of 2025 and 2024.

The following tables (in millions) show AFG's assets, revenues and earnings before income taxes by segment and sub-segment.

D. Fair Value Measurements

Accounting standards for measuring fair value are based on inputs used in estimating fair value. The three levels of the hierarchy are as follows:

Level 1 — Quoted prices for identical assets or liabilities in active markets (markets in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis). AFG's Level 1 financial instruments consist primarily of publicly traded equity securities, highly liquid government bonds for which quoted market prices in active markets are available and short-term investments of managed investment entities.

Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar assets or liabilities in inactive markets (markets in which there are few transactions, the prices are not current, price quotations vary substantially over time or among market makers, or in which little information is released publicly); and valuations based on other significant inputs that are observable in active markets. AFG's Level 2 financial instruments consist primarily of fixed maturity securities and investments of managed investment entities priced using observable inputs. Level 2 inputs include benchmark yields, reported trades, corroborated broker/dealer quotes, issuer spreads and benchmark securities. When non-binding broker quotes can be corroborated by comparison to similar securities priced using observable inputs, they are classified as Level 2.

Level 3 — Valuations derived from market valuation techniques generally consistent with those used to estimate the fair values of Level 2 financial instruments in which one or more significant inputs are unobservable or when the market for a security exhibits significantly less liquidity relative to markets supporting Level 2 fair value measurements. The unobservable inputs may include management's own assumptions about the assumptions market participants would use based on the best information available at the valuation date. Financial instruments whose fair value is estimated based on non-binding broker quotes or internally developed using significant inputs not based on, or corroborated by, observable market information are classified as Level 3.

As discussed in *Note A — "Accounting Policies — Managed Investment Entities,"* AFG has set the carrying value of its CLO liabilities equal to the fair value of the CLO assets (which have more observable fair values) as an alternative to reporting those liabilities at separately measured fair values. As a result, the CLO liabilities are categorized within the fair value hierarchy on the same basis (proportionally) as the related CLO assets. Since the portion of the CLO liabilities allocated to Level 3 is derived from the fair value of the CLO assets, these amounts are excluded from the progression of Level 3 financial instruments.

AFG's management is responsible for the valuation process and uses data from outside sources (including nationally recognized pricing services and broker/dealers) in establishing fair value. AFG's internal investment group includes approximately 20 investment professionals whose primary responsibility is to manage AFG's investment portfolio. These professionals monitor individual investments as well as overall industries and are active in the financial markets on a daily basis. The group is led by AFG's chief investment officer, who reports directly to one of AFG's Co-CEOs. Valuation techniques utilized by pricing services and prices obtained from external sources are reviewed by AFG's internal investment professionals who are familiar with the securities being priced and the markets in which they trade to ensure the fair value determination is representative of an exit price. To validate the appropriateness of the prices obtained, these investment managers consider widely published indices (as benchmarks), recent trades, changes in interest rates, general economic conditions and the credit quality of the specific issuers. In addition, AFG communicates directly with the pricing services regarding the methods and assumptions used in pricing, including verifying, on a test basis, the inputs used by the service to value specific securities.

Total liabilities accounted for at fair value	\$ 402	\$ 3,571	\$ 12	\$ 3,985

Approximately 7% of the total assets carried at fair value at September 30, 2025, were Level 3 assets. Internally developed prices for fixed maturities are estimated using a variety of inputs, including appropriate credit spreads over the treasury yield (of a similar duration), trade information and prices of comparable securities and other security specific features (such as optional early redemption). Internally developed Level 3 asset fair values represent approximately 86% (\$867 million) of the total fair value of Level 3 assets at September 30, 2025. Approximately 67% (\$584 million) of these internally developed Level 3 assets are priced using a pricing model that uses a discounted cash flow approach to estimate the fair value of fixed maturity securities. The credit spread applied by management is the significant unobservable input of the pricing model. In instances where the security is currently callable at par value and the pricing

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

model suggests a higher price, management caps the fair value at par value. The remainder of the internally developed Level 3 investments (\$283 million) are priced using internal models or inputs from third parties that are not market observable. Management believes that any justifiable changes in unobservable inputs used to determine internally developed fair values would not have resulted in a material change in AFG's financial position.

Approximately 12% (\$120 million) of the Level 3 assets were investments whose prices were determined based on financial information provided by third party asset managers. Approximately 2% (\$17 million) of Level 3 assets were priced using non-binding broker quotes or pricing services, for which there is a lack of transparency as to the inputs used to determine fair value.

Changes in balances of Level 3 financial assets and liabilities carried at fair value during the third quarter and first nine months of 2025 and 2024 are presented below (in millions). The transfers into and out of Level 3 were due to changes in the availability of market observable inputs. All transfers are reflected in the table at fair value as of the end of the reporting period.

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

Equity securities which are reported at fair value with holding gains and losses recognized in net earnings, consisted of the following at September 30, 2025 and December 31, 2024 (in millions):

	September 30, 2025			December 31, 2024		
	Actual Cost	Fair Value	Fair Value Over Cost	Actual Cost	Fair Value	Fair Value Over Cost
Common stocks	\$ 323	\$ 384	\$ 61	\$ 304	\$ 336	\$ 32
Perpetual preferred stocks	391	416	25	380	415	35
Total equity securities carried at fair value	<u>\$ 714</u>	<u>\$ 800</u>	<u>\$ 86</u>	<u>\$ 684</u>	<u>\$ 751</u>	<u>\$ 67</u>

The following table summarizes investments accounted for using the equity method, by strategy (in millions):

	Carrying Value		Net Investment Income			
	September 30, 2025	December 31, 2024	Three months ended September 30,		Nine months ended September 30,	
			2025	2024	2025	2024
Real estate-related investments (*)	\$ 1,422	\$ 1,392	\$ 12	\$ 10	\$ 13	\$ 15
Private equity	870	804	13	(5)	14	26
Private debt	91	81	2	1	7	4
Total investments accounted for using the equity method	<u>\$ 2,383</u>	<u>\$ 2,277</u>	<u>\$ 27</u>	<u>\$ 6</u>	<u>\$ 34</u>	<u>\$ 45</u>

(*) 88% of the carrying value relates to underlying investments in multi-family properties as of September 30, 2025 and December 31, 2024.

The earnings (losses) from these investments are generally reported on a quarter lag due to the timing required to obtain the necessary information from the funds. AFG regularly reviews and discusses fund performance with the fund managers to corroborate the reasonableness of the underlying reported asset values and to assess whether any events have occurred within the lag period that may materially affect the valuation of these investments.

With respect to partnerships and similar investments, AFG had unfunded commitments of \$474 million and \$457 million as of September 30, 2025 and December 31, 2024, respectively.

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

The following table shows gross unrealized losses (dollars in millions) on available for sale fixed maturities by investment category and length of time that individual securities have been in a continuous unrealized loss position at the following balance sheet dates.

	Less Than Twelve Months			Twelve Months or More		
	Unrealized Loss	Fair Value	Fair Value as % of Cost	Unrealized Loss	Fair Value	Fair Value as % of Cost
September 30, 2025						
Fixed maturities:						
U.S. government and government agencies	\$ —	\$ 8	100%	\$ (1)	\$ 66	99%
States, municipalities and political subdivisions	(2)	86	98%	(30)	429	93%
Foreign government	—	8	100%	—	42	100%
Residential MBS	(1)	145	99%	(112)	935	89%
Collateralized loan obligations	—	25	100%	(5)	178	97%
Other asset-backed securities	(1)	161	99%	(43)	891	95%
Corporate and other	(1)	121	99%	(25)	872	97%
Total fixed maturities	\$ (5)	\$ 554	99%	\$ (216)	\$ 3,413	94%
December 31, 2024						
Fixed maturities:						
U.S. government and government agencies	\$ —	\$ 35	100%	\$ (3)	\$ 105	97%
States, municipalities and political subdivisions	(5)	256	98%	(44)	470	91%
Foreign government	—	98	100%	(1)	50	98%
Residential MBS	(6)	452	99%	(148)	916	86%
Collateralized loan obligations	—	—	—%	(12)	247	95%
Other asset-backed securities	(4)	332	99%	(65)	1,217	95%
Corporate and other	(10)	605	98%	(55)	1,151	95%
Total fixed maturities	\$ (25)	\$ 1,778	99%	\$ (328)	\$ 4,156	93%

At September 30, 2025, the gross unrealized losses on fixed maturities of \$221 million relate to approximately 900 securities. Investment grade securities (as determined by nationally recognized rating agencies) represented approximately 96% of the gross unrealized loss and 96% of the fair value of securities with unrealized losses.

To evaluate fixed maturities for expected credit losses (impairment), management considers whether the unrealized loss is credit-driven or a result of changes in market interest rates, the extent to which fair value is less than cost basis, historical operating, balance sheet and cash flow data from the issuer, third party research, communications with industry specialists and discussions with issuer management.

AFG analyzes its residential MBS for expected credit losses (impairment) each quarter based upon expected future cash flows. Management estimates expected future cash flows based upon its knowledge of the MBS market, cash flow projections (which reflect loan to collateral values, subordination, vintage and geographic concentration) received from independent sources, implied cash flows inherent in security ratings and analysis of historical payment data.

Management believes AFG will recover its cost basis (net of any allowance) in the securities with unrealized losses and that AFG has the ability to hold the securities until they recover in value and had no intent to sell them at September 30, 2025.

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

A progression of the allowance for expected credit losses on available for sale fixed maturity securities is shown below (in millions):

	Structured Securities (*)	Corporate and Other	Total
Balance at June 30, 2025	\$ 10	\$ 5	\$ 15
Provision for expected credit losses on securities with no previous allowance	—	—	—
Additions to previously recognized expected credit losses	1	—	1

Additions to previously recognized expected credit losses	1	—	1
Reductions due to sales or redemptions	(1)	(3)	(4)
Balance at September 30, 2024	<u>\$ 10</u>	<u>\$ 15</u>	<u>\$ 25</u>

(*) Includes residential MBS, CLOs and other asset-backed securities (“ABS”).

In the first nine months of 2025 and 2024, AFG did not purchase any securities with expected credit losses.

The table below sets forth the scheduled maturities of AFG’s available for sale fixed maturities as of September 30, 2025 (dollars in millions). Securities with sinking funds are reported at average maturity. Actual maturities may differ from contractual maturities because certain securities may be called or prepaid by the issuers.

Maturity	Amortized Cost, net (*)	Fair Value	
		Amount	%
One year or less	\$ 759	\$ 751	7%
After one year through five years	2,349	2,369	23%
After five years through ten years	1,325	1,364	13%
After ten years	231	220	2%
	4,664	4,704	45%
CLOs and other ABS (average life of approximately 3 years)	3,521	3,503	33%
Residential MBS (average life of approximately 6 years)	2,387	2,311	22%
Total	<u>\$ 10,572</u>	<u>\$ 10,518</u>	<u>100%</u>

(*) Amortized cost, net of allowance for expected credit losses.

Certain risks are inherent in fixed maturity securities, including loss upon default, price volatility in reaction to changes in interest rates, and general market factors and risks associated with reinvestment of proceeds due to prepayments or redemptions in a period of declining interest rates.

There were no investments in individual issuers that exceeded 10% of shareholders’ equity at September 30, 2025 or December 31, 2024.

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

All equity securities are carried at fair value through net earnings. AFG recorded net holding gains (losses) on equity securities during the third quarter and first nine months of 2025 and 2024 on securities that were still owned at September 30, 2025 and September 30, 2024 as follows (in millions):

	Three months ended September 30,		Nine months ended September 30,	
	2025	2024	2025	2024
Included in realized gains (losses)	\$ 7	\$ 10	\$ 24	\$ 25
Included in net investment income	(5)	20	(2)	45
	<u>\$ 2</u>	<u>\$ 30</u>	<u>\$ 22</u>	<u>\$ 70</u>

Gross realized gains and losses (excluding changes in impairment allowance and mark-to-market of derivatives) on available for sale fixed maturity investment transactions consisted of the following (in millions):

	Nine months ended September 30,	
	2025	2024
Gross gains	\$ 4	\$ 1
Gross losses	(13)	(5)

F. Derivatives

As discussed under “*Derivatives*” in Note A — “*Accounting Policies*,” AFG uses derivatives to mitigate certain market risks related to its investment portfolio and deferred compensation obligations to employees.

The following table presents the classification of derivative assets and liabilities included in AFG’s Balance Sheet at fair value (in millions):

	Balance Sheet Line	September 30, 2025		December 31, 2024	
		Asset	Liability	Asset	Liability
Derivatives designated and qualifying as cash flow hedges:					
Interest rate swaps	Other assets/Other liabilities	\$ 1	\$ 5	\$ 1	\$ 14
Derivatives not designated as hedging instruments:					
Fixed maturities with embedded derivatives	Fixed maturities	51	—	81	—
Total return swap	Other assets/Other liabilities	3	—	—	4
		<u>\$ 55</u>	<u>\$ 5</u>	<u>\$ 82</u>	<u>\$ 18</u>

AFG’s interest rate swaps are designated and qualify as highly effective cash flow hedges to mitigate interest rate risk related to certain floating-rate securities included in AFG’s portfolio of fixed maturity securities. The purpose of each of these swaps is to effectively convert a portion of AFG’s floating-rate fixed maturity securities to fixed rates by offsetting the variability in cash flows attributable to changes in the applicable Secured Overnight Financing Rate (“SOFR”).

Under the terms of the swaps, AFG receives fixed-rate interest payments in exchange for variable interest payments based on SOFR. The notional amounts of the interest rate swaps generally decline over each swap’s respective life (the swaps expire between October 2025 and October 2034) in anticipation of the expected decline in AFG’s portfolio of fixed maturity securities with floating interest rates based on SOFR. The total outstanding notional amount of AFG’s interest rate swaps was \$637 million at September 30, 2025 compared to \$1.05 billion at December 31, 2024, reflecting scheduled amortization, partially offset by one new swap entered into in the first nine months of 2025 (\$12 million notional amount at issuance). Amounts reclassified from AOCI to net investment income were losses of \$3 million and \$6 million in the third quarter of 2025 and 2024 and losses of \$8 million and \$20 million in the first nine months of 2025 and 2024, respectively. Based on forward interest rate curves at September 30, 2025, management estimates that it will reclassify approximately \$4 million of pre-tax net losses on interest rate swaps in AOCI to net investment income over the next twelve months. The actual amount will vary based on changes in SOFR. A collateral receivable supporting these swaps of \$12 million and \$27 million at September 30, 2025 and December 31, 2024, respectively, is included in other assets in AFG’s Balance Sheet.

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

The fixed maturities with embedded derivatives consist of convertible fixed maturity securities and interest-only and principal-only MBS. AFG records the change in the fair value of these securities in net earnings. These investments are part of AFG's overall investment strategy and represent a small component of AFG's overall investment portfolio.

AFG is exposed to fair value changes from certain equity and fixed maturity market-based exposures related to its deferred compensation obligations to certain employees. To mitigate this risk, AFG entered into a total return swap. AFG's Balance Sheet includes a \$2 million liability to return collateral related to the swap (included in other liabilities) and a \$4 million receivable for collateral posted related to the swap (included in other assets) at September 30, 2025 and December 31, 2024, respectively.

The following table summarizes the gains (losses) included in AFG's Statement of Earnings for changes in the fair value of derivatives (in millions):

Statement of Earnings Line	Three months ended September 30,		Nine months ended September 30,		
	2025	2024	2025	2024	
Qualifying cash flow hedges:					
Interest rate swaps	\$ (3)	\$ (6)	\$ (8)	\$ (20)	
Non-designated hedges:					
Fixed maturities with embedded derivatives	Realized gains (losses) on securities	1	3	2	2
Fixed maturities with embedded derivatives	Net investment income	4	6	6	7
Total return swap	Other expenses	6	5	12	11
Earnings (losses) on non-designated hedges		11	14	20	20
Total earnings (losses) on derivatives		\$ 8	\$ 8	\$ 12	\$ —

G. Managed Investment Entities

AFG is the investment manager and it has investments ranging from 5.4% to 100% of the most subordinate debt tranche of twelve active CLOs, which are considered variable interest entities. AFG also owns portions of the senior debt tranches of certain of these CLOs. Upon formation, these entities issued securities in various senior and subordinate classes and invested the proceeds primarily in secured bank loans, which serve as collateral for the debt securities issued by each CLO. None of the collateral was purchased from AFG. AFG's investments in the subordinate debt tranches of these entities receive residual income from the CLOs only after the CLOs pay expenses (including management fees to AFG) and interest on and returns of capital to senior levels of debt securities. There are no contractual requirements for AFG to provide additional funding for these entities. AFG has not provided and does not intend to provide any financial support to these entities.

AFG's maximum exposure to economic loss on the CLOs that it manages is limited to its investment in those CLOs, which had an aggregate fair value of \$138 million (including \$116 million invested in the most subordinate tranches and \$8 million invested in a temporary warehousing entity) at September 30, 2025.

In the first nine months of 2025, AFG formed two new CLOs, which issued \$813 million face amount of liabilities (including \$80 million face amount purchased by AFG). In the first nine months of 2024, AFG formed two new CLOs, which issued \$813 million face amount of liabilities (including \$73 million face amount purchased by AFG). In the first nine months of 2025, three CLOs were substantially liquidated in accordance with the CLO indentures.

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

The following table shows a progression of the fair value of AFG's investment in CLO tranches and temporary warehousing entities (in millions):

	Three months ended September 30,		Nine months ended September 30,	
	2025	2024	2025	2024
Balance at beginning of period	\$ 148	\$ 159	\$ 175	\$ 177
Purchases	55	10	130	94
Sales	(58)	—	(146)	(100)
Distributions	(13)	(7)	(31)	(32)
CLO earnings attributable to AFG	6	2	10	25
Balance at end of period	\$ 138	\$ 164	\$ 138	\$ 164

The revenues and expenses of the CLOs are separately identified in AFG's Statement of Earnings, after the elimination of management fees and earnings attributable to AFG as measured by the change in the fair value of AFG's investments in the CLOs. Selected financial information related to the CLOs is shown below (in millions):

	Three months ended September 30,		Nine months ended September 30,	
	2025	2024	2025	2024
Gains (losses) on change in fair value of assets/liabilities (*):				
Assets	\$ (6)	\$ (7)	\$ (51)	\$ (10)
Liabilities	6	(2)	44	15
Management fees paid to AFG	3	3	8	9
CLO earnings attributable to AFG	6	2	10	25

(*) Included in revenues in AFG's Statement of Earnings.

The aggregate unpaid principal balance of the CLOs' fixed maturity investments exceeded the fair value of the investments by \$73 million and \$66 million at September 30, 2025 and December 31, 2024, respectively. The aggregate unpaid principal balance of the CLOs' debt exceeded its carrying value by \$218 million and \$172 million at those dates, respectively. At September 30, 2025, the CLOs assets did not include any loans in default for which the CLOs are not accruing interest compared to an aggregate fair value of \$3 million of loans in default (with an aggregate unpaid principal balance of \$5 million) at December 31, 2024.

In addition to the CLOs that it manages, AFG had investments in CLOs that are managed by third parties (therefore not consolidated), which are included in available for sale fixed maturity securities and had a fair value of \$1.10 billion at September 30, 2025 and \$1.24 billion December 31, 2024.

H. Goodwill and Other Intangibles

The carrying value of goodwill was \$327 million at September 30, 2025 and \$305 million at December 31, 2024, an increase of \$22 million due to the July 2025 acquisition of Radion (see *Note B — "Acquisition of Business"*).

Included in other assets in AFG's Balance Sheet is \$192 million at September 30, 2025 and \$203 million at December 31, 2024 of amortizable intangible assets related to acquisitions. These amounts are net of accumulated amortization of \$69 million and \$59 million, respectively. Amortization of intangibles was \$5 million in both the third quarter of 2025 and 2024 and \$15 million and \$14 million in the first nine months of 2025 and 2024, respectively. In the third quarter of 2025, AFG wrote off \$2 million of amortizable intangible assets that became obsolete in connection with certain changes in AFG's business. This write-off is included in realized gains (losses) on subsidiaries in AFG's Statement of Earnings.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

I. Long-Term Debt

Long-term debt consisted of the following (in millions):

	September 30, 2025			December 31, 2024		
	Principal	Discount and Issue Costs	Carrying Value	Principal	Discount and Issue Costs	Carrying Value
Direct Senior Obligations of AFG:						
4.50% Senior Notes due June 2047	\$ 567	\$ (1)	\$ 566	\$ 567	\$ (1)	\$ 566
5.00% Senior Notes due September 2035	350	(6)	344	—	—	—
5.25% Senior Notes due April 2030	253	(3)	250	253	(4)	249
Other	3	—	3	3	—	3
	<u>1,173</u>	<u>(10)</u>	<u>1,163</u>	<u>823</u>	<u>(5)</u>	<u>818</u>
Direct Subordinated Obligations of AFG:						
4.50% Subordinated Debentures due September 2060	200	(5)	195	200	(5)	195
5.125% Subordinated Debentures due December 2059	200	(5)	195	200	(5)	195
5.625% Subordinated Debentures due June 2060	150	(4)	146	150	(4)	146
5.875% Subordinated Debentures due March 2059	125	(4)	121	125	(4)	121
	<u>675</u>	<u>(18)</u>	<u>657</u>	<u>675</u>	<u>(18)</u>	<u>657</u>
	<u>\$ 1,848</u>	<u>\$ (28)</u>	<u>\$ 1,820</u>	<u>\$ 1,498</u>	<u>\$ (23)</u>	<u>\$ 1,475</u>

Scheduled principal payments on debt for the balance of 2025, the subsequent five years and thereafter are as follows: 2025 — none; 2026 — none; 2027 — none; 2028 — none; 2029 — none; 2030 — \$253 million and thereafter — \$1.60 billion.

In September 2025, AFG issued \$350 million in 5.00% Senior Notes due in 2035. The net proceeds of this offering will be used for general corporate purposes, which may include repurchases of outstanding common shares.

AFG can borrow up to \$450 million under its revolving credit facility, which expires in June 2028. Amounts borrowed under this agreement bear interest at rates ranging from 1.00% to 1.75% (currently 1.25%) over a SOFR-based floating rate. No amounts were borrowed under this facility at September 30, 2025 or December 31, 2024.

J. Shareholders' Equity

AFG is authorized to issue 12.5 million shares of Voting Preferred Stock and 12.5 million shares of Nonvoting Preferred Stock, each without par value.

Accumulated Other Comprehensive Income (Loss), Net of Tax ("AOCI") Comprehensive income is defined as all changes in shareholders' equity except those arising from transactions with shareholders. Comprehensive income includes net earnings and other comprehensive income (loss), which consists primarily of changes in net unrealized gains or losses on available for sale fixed maturity securities.

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

The progression of the components of accumulated other comprehensive income (loss) is as follows (in millions):

Pretax - Net unrealized gains (losses) on cash flow hedges	Net investment income
Tax	Provision for income taxes

Stock Incentive Plans Under AFG's stock incentive plans, employees of AFG and its subsidiaries are eligible to receive equity awards in the form of stock options, stock appreciation rights, restricted stock awards, restricted stock units and stock awards. In the first nine months of 2025, AFG issued 166,297 shares of restricted Common Stock (fair value of \$121.89 per share) under the stock incentive plans.

Total compensation expense related to stock incentive plans of AFG and its subsidiaries was \$4 million in both the third quarter of 2025 and 2024 and \$13 million in both the first nine months of 2025 and 2024.

K. Income Taxes

The following is a reconciliation of income taxes at the statutory rate of 21% to the provision for income taxes as shown in AFG's Statement of Earnings (dollars in millions):

	Three months ended September 30,				Nine months ended September 30,			
	2025		2024		2025		2024	
	Amount	% of EBT	Amount	% of EBT	Amount	% of EBT	Amount	% of EBT
Earnings before income taxes ("EBT")	\$ 268		\$ 229		\$ 694		\$ 804	
Income taxes at statutory rate	\$ 57	21%	\$ 48	21%	\$ 146	21%	\$ 169	21%
Effect of:								
Change in valuation allowance	(6)	(2%)	(2)	(1%)	(6)	(1%)	(2)	—%
Adjustment to prior year taxes	(5)	(2%)	1	—%	(5)	(1%)	1	—%
Tax exempt interest	(1)	—%	(1)	—%	(3)	—%	(3)	(1%)
Employee stock ownership plan dividend paid deduction	—	—%	(1)	—%	(2)	—%	(3)	(1%)
Dividends received deduction	(1)	—%	—	—%	(2)	—%	(1)	—%
Stock-based compensation	—	—%	—	—%	(1)	—%	(2)	—%
Nondeductible expenses	3	1%	2	1%	9	1%	6	1%
Adjustment related to sale of subsidiary	—	—%	—	—%	7	1%	4	1%
Foreign operations	1	—%	1	—%	4	1%	1	—%
Other	5	2%	—	—%	4	—%	2	—%
Provision for income taxes as shown in the statement of earnings	\$ 53	20%	\$ 48	21%	\$ 151	22%	\$ 172	21%

In the second quarter of 2025, AFG recorded \$7 million in net tax expense related to a pending state income tax examination regarding the sale of a subsidiary in a prior year. In the second quarter of 2024, AFG recorded \$4 million in net tax expense related to a pending IRS settlement regarding the sale of a different subsidiary in a prior year.

The One Big Beautiful Bill Act (enacted on July 4, 2025), among other things, extends many of the federal tax provisions of the 2017 Tax Cuts and Jobs Act and contains provisions that will accelerate the timing of certain tax deductions beginning in 2025 with an offsetting impact to deferred taxes and no impact on total income tax expense. Management is still evaluating the full impact of the bill, but does not expect the tax provisions of the bill to be material to AFG's results of operations in future periods.

L. Contingencies

There have been no significant changes to the matters discussed and referred to in *Note M — "Contingencies"* of AFG's 2024 Form 10-K, which covers property and casualty insurance reserves for claims related to environmental exposures, asbestos and other mass tort claims and environmental and occupational injury and disease claims of subsidiaries' former railroad and manufacturing operations.

AMERICAN FINANCIAL GROUP, INC. 10-Q
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — CONTINUED

M. Insurance

Insurance Reserves The following table provides an analysis of changes in the liability for losses and loss adjustment expenses during the first nine months of 2025 and 2024 (in millions):

	Nine months ended September 30,	
	2025	2024
Balance at beginning of year	\$ 14,179	\$ 13,087
Less reinsurance recoverables, net of allowance	4,957	4,288
Net liability at beginning of year	9,222	8,799
Provision for losses and LAE occurring in the current period	3,381	3,379
Net decrease in the provision for claims of prior years	(54)	(100)
Total losses and LAE incurred	3,327	3,279
Payments for losses and LAE of:		
Current year	(836)	(828)
Prior years	(1,998)	(2,027)
Total payments	(2,834)	(2,855)
Foreign currency translation and other	(7)	(2)
Net liability at end of period	9,708	9,221
Add back reinsurance recoverables, net of allowance	5,371	4,985
Gross unpaid losses and LAE included in the balance sheet at end of period	\$ 15,079	\$ 14,206

The net decrease in the provision for claims of prior years during the first nine months of 2025 reflects (i) lower than anticipated losses in the crop business, lower than anticipated claim severity in the aviation business and lower than expected claim frequency and severity in the property and inland marine business (within the Property and transportation sub-segment), (ii) lower than anticipated claim severity in the workers' compensation and executive liability businesses (within the Specialty casualty sub-segment) and (iii) lower than anticipated claim frequency in the financial institutions business and lower than expected claim severity in the surety, fidelity and trade credit businesses (within the Specialty financial sub-segment). This favorable development was partially offset by higher than expected claim severity in the excess and surplus, social services, excess liability, public sector and general liability businesses (within the Specialty casualty sub-segment).

The net decrease in the provision for claims of prior years during the first nine months of 2024 reflects (i) lower than anticipated losses in the crop business, lower than expected claim severity in the property and inland marine and aviation businesses and lower than anticipated claim severity and frequency in the ocean marine business (within the Property and transportation sub-segment), (ii) lower than anticipated claim severity in the workers' compensation businesses and lower than expected claim frequency and severity in the executive liability business (within the Specialty casualty sub-segment) and (iii) lower than anticipated claim frequency and severity in the fidelity and financial institutions businesses and lower than expected claim frequency in the trade credit business (within the Specialty financial sub-segment). This favorable development was partially offset by (i) higher than anticipated claim severity in the umbrella and excess liability businesses, public sector and general liability businesses and higher than expected claim frequency and severity in the social services business (within the Specialty casualty sub-segment) and (ii) higher than anticipated claim severity in the innovative markets and surety businesses (within the Specialty financial sub-segment).

FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. Some of the forward-looking statements can be identified by the use of words such as “anticipates”, “believes”, “expects”, “projects”, “estimates”, “intends”, “plans”, “seeks”, “could”, “may”, “should”, “will” or the negative version of those words or other comparable terminology. Such forward-looking statements include statements relating to: expectations concerning market and other conditions and their effect on future premiums, revenues, earnings, investment activities and the amount and timing of share repurchases and special dividends; recoverability of asset values; expected losses and the adequacy of reserves for asbestos, environmental pollution and mass tort claims; rate changes; and improved loss experience.

Actual results and/or financial condition could differ materially from those contained in or implied by such forward-looking statements for a variety of reasons including but not limited to the following and the risks and uncertainties AFG describes in the “*Risk Factors*” section of its most recent Annual Report on Form 10-K, as updated by its other reports filed with the Securities and Exchange Commission.

- changes in financial, political and economic conditions, including changes in interest and inflation rates and impacts from tariffs or other trade actions, currency fluctuations and extended economic recessions or expansions in the U.S. and/or abroad;
- performance of securities markets;
- new legislation or declines in credit quality or credit ratings that could have a material impact on the valuation of securities in AFG’s investment portfolio;
- the availability of capital;
- changes in insurance law or regulation, including changes in statutory accounting rules, including modifications to capital requirements;
- changes in the legal environment affecting AFG or its customers;
- tax law and accounting changes;
- levels of natural catastrophes and severe weather, terrorist activities (including any nuclear, biological, chemical or radiological events), incidents of war or losses resulting from pandemics, civil unrest and other major losses;
- disruption caused by cyber-attacks or other technology breaches or failures by AFG or its business partners and service providers, which could negatively impact AFG’s business or reputation and/or expose AFG to litigation;
- development of insurance loss reserves and establishment of other reserves, particularly with respect to amounts associated with asbestos and environmental claims;
- availability of reinsurance and ability of reinsurers to pay their obligations;
- competitive pressures;
- the ability to obtain adequate rates and policy terms;
- changes in AFG’s credit ratings or the financial strength ratings assigned by major ratings agencies to AFG’s operating subsidiaries; and
- the impact of the conditions in the international financial markets and the global economy relating to AFG’s international operations.

The forward-looking statements herein are made only as of the date of this report. The Company assumes no obligation to publicly update any forward-looking statements.

OBJECTIVE

The objective of Management's Discussion and Analysis is to provide a discussion and analysis of the financial statements and other statistical data that management believes will enhance the understanding of AFG's financial condition, changes in financial condition and results of operations. The tables and narrative that follow are presented in a manner that is consistent with the information that AFG's management uses to make operational decisions and allocate capital resources. They are provided to demonstrate the nature of the transactions and events that could impact AFG's financial results. This discussion should be read in conjunction with the financial statements beginning on page 2.

OVERVIEW

Financial Condition

AFG is organized as a holding company with almost all of its operations being conducted by subsidiaries. AFG, however, has continuing cash needs for administrative expenses, the payment of principal and interest on borrowings, shareholder dividends and taxes. Therefore, certain analyses are most meaningfully presented on a parent only basis while others are best done on a total enterprise basis. In addition, because its businesses are financial in nature, AFG does not prepare its consolidated financial statements using a current-noncurrent format. Consequently, certain traditional ratios and financial analysis tests are not meaningful.

Results of Operations

Through the operations of its subsidiaries, AFG is engaged primarily in property and casualty insurance, focusing on specialized commercial products for businesses.

AFG reported net earnings of \$215 million (\$2.58 per share, diluted) for the third quarter of 2025 compared to \$181 million (\$2.16 per share, diluted) for the third quarter of 2024. The increase in the 2025 period reflects higher underwriting profit, higher net investment income and net realized gains on securities in the 2025 quarter compared to net realized losses on securities in the 2024 quarter, partially offset by higher special A&E charges.

AFG reported net earnings of \$543 million (\$6.50 per share, diluted) for the first nine months of 2025 compared to \$632 million (\$7.54 per share, diluted) for the first nine months of 2024. The decline in the 2025 period reflects lower underwriting profit, lower net investment income from AFG's alternative investment portfolio and higher special A&E charges, partially offset by the favorable impact on net investment income of higher average balances of investments and higher yields on fixed maturity investments.

Outlook

Management expects premium growth in many of AFG's business units and continued strong underwriting results in the ongoing generally favorable property and casualty insurance market. In addition, management anticipates the elevated interest rate environment (since early 2022) will continue to have a positive impact on investment income on fixed maturity investments into 2026.

AFG's financial condition, results of operations and cash flows are impacted by the economic, legal and regulatory environment. Economic inflation, social inflation, supply chain disruption and other economic conditions may impact premium levels, loss cost trends and investment returns.

Management believes that AFG's strong financial position and current liquidity and capital at its subsidiaries will give AFG the flexibility to continue to effectively address and respond to anticipated and unanticipated challenges. AFG's insurance subsidiaries continue to have capital at or in excess of the levels required by ratings agencies in order to maintain their current ratings, and the parent company does not have any debt maturities until 2030.

CRITICAL ACCOUNTING POLICIES

Significant accounting policies are summarized in *Note A — "Accounting Policies"* to the financial statements. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that can have a significant effect on amounts reported in the financial statements. As more information becomes known,

AMERICAN FINANCIAL GROUP, INC. 10-Q
Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued

these estimates and assumptions change and, thus, impact amounts reported in the future. The areas where management believes the degree of judgment required to determine amounts recorded in the financial statements is most significant are as follows:

- the valuation of investments, including the determination of impairment allowances,
- the establishment of insurance reserves, especially asbestos and environmental-related reserves,
- the recoverability of reinsurance, and
- the establishment of asbestos and environmental liabilities of former railroad and manufacturing operations.

For a discussion of these policies, see *Management's Discussion and Analysis* — “*Critical Accounting Policies*” in AFG's 2024 Form 10-K.

LIQUIDITY AND CAPITAL RESOURCES

Ratios

AFG's debt to total capital ratio on a consolidated basis is shown below (dollars in millions):

	September 30, 2025	December 31,	
		2024	2023
Principal amount of long-term debt	\$ 1,848	\$ 1,498	\$ 1,498
Total capital	6,651	6,204	6,075
Ratio of debt to total capital:			
Including subordinated debt	27.8%	24.1%	24.7%
Excluding subordinated debt	17.6%	13.3%	13.5%

The ratio of debt to total capital is a non-GAAP measure that management believes is useful for investors, analysts and ratings agencies to evaluate AFG's financial strength and liquidity and to provide insight into how AFG finances its operations. The ratio is calculated by dividing the principal amount of AFG's long-term debt by its total capital, which includes long-term debt and shareholders' equity (excluding accumulated other comprehensive income (loss), net of tax). In addition, maintaining a ratio of debt, excluding subordinated debt and debt secured by real estate (if any), to total capital of 35% or lower is a financial covenant in AFG's bank credit facility.

Condensed Consolidated Cash Flows

AFG's principal sources of cash include insurance premiums, income from its investment portfolio and proceeds from the maturities, redemptions and sales of investments. Insurance premiums in excess of acquisition expenses and operating costs are invested until they are needed to meet policyholder obligations or made available to the parent company through dividends to cover debt obligations and corporate expenses, and to provide returns to shareholders through share repurchases and dividends. Cash flows from operating, investing and financing activities as detailed in AFG's Consolidated Statement of Cash Flows are shown below (in millions):

	Nine months ended September 30,	
	2025	2024
Net cash provided by operating activities	\$ 749	\$ 478
Net cash provided by (used in) investing activities	(71)	116
Net cash used in financing activities	(242)	(497)
Net change in cash and cash equivalents	\$ 436	\$ 97

Net Cash Provided by Operating Activities AFG's property and casualty insurance operations typically produce positive net operating cash flows as premiums collected and investment income exceed policy acquisition costs, claims payments and operating expenses. AFG's net cash provided by operating activities is impacted by the level and timing of premiums, claim and expense payments and recoveries from reinsurers. Cash flows provided by operating activities also include the activity of AFG's managed investment entities (collateralized loan obligations (“CLO”)) other than those activities included in investing or financing activities. The changes in the assets and liabilities of the managed investment entities included in operating activities increased cash flows from operating activities by \$104 million during the first nine months of 2025 and reduced cash flows from operating activities by \$67 million in the first nine months of 2024, accounting for a \$171 million increase in cash flows from operating activities in the 2025 period compared to the 2024 period. As discussed in *Note A — “Accounting Policies — Managed Investment Entities”* to the financial statements, AFG

has no right to use the CLO assets and no obligation to pay the CLO liabilities and such assets and liabilities are shown separately in AFG's Balance Sheet. Excluding the impact of the managed investment entities, net cash provided by operating activities was \$645 million and \$545 million in the first nine months of 2025 and 2024, respectively.

Net Cash Provided by (Used in) Investing Activities AFG's investing activities consist primarily of the investment of funds provided by its property and casualty businesses. Investing activities also include the purchase and disposal of managed investment entity investments, which are presented separately in AFG's Balance Sheet. Net investment activity in the managed investment entities was a \$63 million source of cash in the first nine months of 2025 compared to \$204 million in the first nine months of 2024, accounting for a \$141 million decrease in net cash provided by investing activities in the first nine months of 2025 compared to the 2024 period. See *Note A — "Accounting Policies — Managed Investment Entities"* and *Note G — "Managed Investment Entities"* to the financial statements. Investing activities for the first nine months of 2025 include the July acquisition of Radion Insurance Holdings, LLC ("Radion") for \$7 million in cash. Excluding the acquisition of Radion and the activity of the managed investment entities, investing activities were a \$127 million use of cash in the first nine months of 2025 compared to \$88 million in the first nine months of 2024.

Net Cash Used in Financing Activities AFG's financing activities consist primarily of issuances and retirements of long-term debt, issuances and repurchases of common stock and dividend payments. Net cash used in financing activities was \$242 million for the first nine months of 2025 compared to \$497 million in the first nine months of 2024, a decrease of \$255 million. The net proceeds from AFG's issuance of \$350 million in 5.00% Senior Notes in September 2025 was a \$344 million source of cash in the first nine months of 2025. AFG paid cash dividends totaling \$367 million in the first nine months of 2025 compared to \$385 million in the first nine months of 2024, accounting for a decrease in cash used in financing activities of \$18 million. During the first nine months of 2025, AFG repurchased \$98 million of its Common Stock compared to no repurchases in the comparable 2024 period. Financing activities also include issuances and retirements of managed investment entity liabilities, which are nonrecourse to AFG and presented separately in AFG's Balance Sheet. Retirements of managed investment entity liabilities exceeded issuances by \$130 million in the first nine months of 2025 compared to \$125 million in the first nine months of 2024, accounting for a \$5 million increase in net cash used in financing activities in the 2025 period compared to the 2024 period. See *Note A — "Accounting Policies — Managed Investment Entities"* and *Note G — "Managed Investment Entities"* to the financial statements.

Parent and Subsidiary Liquidity

Parent Holding Company Liquidity Management believes AFG has sufficient resources to meet its liquidity requirements. If funds generated from operations, including dividends, tax payments and borrowings from subsidiaries, are insufficient to meet fixed charges in any period, AFG would be required to utilize parent company cash and investments or to generate cash through borrowings, sales of other assets or similar transactions.

AFG's operations continue to generate significant excess capital for future returns of capital to shareholders in the form of regular and special cash dividends and through opportunistic share repurchases or to be deployed into its property and casualty businesses as management identifies the potential for profitable organic growth, and opportunities to expand through acquisitions of established businesses or start-ups that meet target return thresholds.

In September 2025, AFG issued \$350 million in 5.00% Senior Notes due in September 2035. The net proceeds of this offering will be used for general corporate purposes, which may include repurchases of AFG's outstanding common shares.

During the first nine months of 2025, AFG repurchased 788,134 shares of its Common Stock for \$98 million and paid a special cash dividend totaling \$167 million (\$2.00 per share) in March. On November 4, 2025, AFG declared a special cash dividend of \$2.00 per share, payable on November 26, 2025. The aggregate amount of this special dividend will be approximately \$167 million.

During 2024, AFG paid special cash dividends totaling \$545 million (\$2.50 per share in February and \$4.00 per share in November).

AFG may, at any time and from time to time, seek to retire or purchase its outstanding debt through cash purchases or exchanges for equity or debt, in open-market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will be upon such terms and at such prices as management may determine, and will depend on prevailing market conditions, AFG's liquidity requirements, contractual restrictions and other factors.

At September 30, 2025, AFG (parent) held approximately \$625 million in cash and investments. Management believes that AFG's cash balances are held at stable banking institutions, although the amounts of many of these deposits are in excess of federally insured balances. AFG can borrow up to \$450 million under its revolving credit facility, which expires in June 2028. Amounts borrowed under this agreement bear interest at rates ranging from 1.00% to 1.75% (based on AFG's credit rating, currently 1.25%) over a SOFR-based floating rate. There were no borrowings under AFG's credit facility, or under any other parent company short-term borrowing arrangements, during 2024 or the first nine months of 2025.

Under a tax allocation agreement with AFG, all 80% (or more) owned U.S. subsidiaries generally pay taxes to (or recover taxes from) AFG based on each subsidiary's contribution to amounts due under AFG's consolidated tax return.

Subsidiary Liquidity The liquidity requirements of AFG's insurance subsidiaries relate primarily to the policyholder claims and underwriting expenses and payments of dividends and taxes to AFG. Historically, cash flows from premiums and investment income have generally provided more than sufficient funds to meet these requirements. Funds received in excess of cash requirements are generally invested in marketable securities. In addition, the insurance subsidiaries generally hold a significant amount of highly liquid, short duration investments.

AFG believes its insurance subsidiaries maintain sufficient liquidity to pay claims and underwriting expenses. In addition, these subsidiaries have sufficient capital to meet commitments in the event of unforeseen reserve deficiencies, inadequate premium rates or reinsurer insolvencies. Management believes that the capital levels in AFG's insurance subsidiaries are adequate to maintain its business and rating agency ratings. Nonetheless, changes in statutory accounting rules, changes in rating agency measures, significant declines in the fair value of the insurance subsidiaries' investment portfolios or significant ratings downgrades on these investments, could create a need for additional capital.

Investments

AFG's investment portfolio at September 30, 2025, contained \$10.52 billion in fixed maturity securities classified as available for sale and carried at fair value with unrealized gains and losses included in accumulated other comprehensive income (loss) and \$80 million in fixed maturities classified as trading with holding gains and losses included in net investment income. In addition, AFG's investment portfolio includes \$550 million in equity securities carried at fair value with holding gains and losses included in realized gains (losses) on securities and \$250 million in equity securities carried at fair value with holding gains and losses included in net investment income. AFG's investment portfolio also includes \$2.38 billion in investments accounted for using the equity method (limited partnerships and similar investments). Under the equity method, AFG records its share of the earnings or losses of the investee based on when it is reported by the investee in its financial statements rather than in the period in which the investee declares a dividend. AFG's share of the earnings or losses from equity method investments is included in net investment income and is generally recorded on a quarter lag due to the timing of the receipt of the investee's financial statements.

Fair values for AFG's portfolio are determined by AFG's internal investment professionals using data from nationally recognized pricing services, non-binding broker quotes and other market information. Fair values of equity securities are determined by published closing prices when available. For AFG's fixed maturity portfolio, approximately 88% was priced using pricing services at September 30, 2025 and 3% was priced using non-binding broker quotes. The remaining 9% are priced internally using a variety of inputs including credit spreads, trade information, prices of comparable securities, estimates of cash flow and other security specific features. When prices obtained for the same security vary, AFG's internal investment professionals select the price they believe is most indicative of an exit price. For additional information on determination of fair value, see *Note D — "Fair Value Measurements"* to the financial statements.

The pricing services use a variety of observable inputs to estimate fair value of fixed maturities that do not trade on a daily basis. Based upon information provided by the pricing services, these inputs include, but are not limited to, recent reported trades, benchmark yields, issuer spreads, bids or offers, reference data, and measures of volatility. Included in the pricing of structured securities are estimates of the rate of future prepayments and defaults of principal over the remaining life of the underlying collateral. Due to the lack of transparency in the process that brokers use to develop prices, valuations that are based on brokers' prices are classified as Level 3 in the GAAP hierarchy unless the price can be corroborated, for example, by comparison to similar securities priced using observable inputs.

Valuation techniques utilized by pricing services and prices obtained from external sources are reviewed by AFG's internal investment professionals who are familiar with the securities being priced and the markets in which they trade to ensure the fair value determination is representative of an exit price. To validate the appropriateness of the prices obtained, these investment managers consider widely published indices (as benchmarks), recent trades, changes in interest rates, general economic conditions and the credit quality of the specific issuers. In addition, AFG communicates directly with

pricing services regarding the methods and assumptions used in pricing, including verifying, on a test basis, the inputs used by the services to value specific securities.

In general, the fair value of AFG's fixed maturity investments is inversely correlated to changes in interest rates. The following table demonstrates the sensitivity of such fair values to reasonably likely changes in interest rates by illustrating the estimated effect on AFG's fixed maturity portfolio that an immediate increase of 100 basis points in the interest rate yield curve would have had at September 30, 2025 (dollars in millions). Effects of increases or decreases from the 100 basis points illustrated would be approximately proportional.

Fair value of fixed maturity portfolio	\$	10,598
Percentage impact on fair value of 100 bps increase in interest rates		(3.0%)
Pretax impact on fair value of fixed maturity portfolio	\$	(318)

Approximately 96% of the fixed maturities held by AFG at September 30, 2025, were rated "investment grade" (credit rating of AAA to BBB) by nationally recognized rating agencies, 2% were rated "non-investment grade" and 2% were not rated. Investment grade securities generally bear lower yields and lower degrees of risk than those that are unrated and non-investment grade. Management believes that the high-quality investment portfolio should generate a stable and predictable investment return.

AFG has approximately \$80 million of direct exposure to office commercial real estate through property ownership, mortgages or equity method investments. AFG's fixed maturity portfolio includes securities (the majority of which are AAA-rated) with a carrying value of approximately \$320 million that have minimal exposure to office commercial real estate.

Summarized information for the unrealized gains and losses recorded in AFG's Balance Sheet at September 30, 2025, is shown in the following table (dollars in millions). There were \$507 million of available for sale fixed maturity securities with no unrealized gains or losses at September 30, 2025.

	Securities With Unrealized Gains	Securities With Unrealized Losses
Available for Sale Fixed Maturities		
Fair value of securities	\$ 6,044	\$ 3,967
Amortized cost of securities, net of allowance for expected credit losses	\$ 5,877	\$ 4,188
Gross unrealized gain (loss)	\$ 167	\$ (221)
Fair value as % of amortized cost	103%	95%
Number of security positions	1,070	895
Number individually exceeding \$2 million gain or loss	1	28
Concentration of gains (losses) by type or industry (exceeding 5% of unrealized):		
Residential mortgage-backed securities	\$ 37	\$ (113)
Other asset-backed securities	27	(44)
Banking	18	(6)
Asset managers	15	(5)
States and municipalities	8	(32)
Percentage rated investment grade	96%	96%

AMERICAN FINANCIAL GROUP, INC. 10-Q
Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued

The table below sets forth the scheduled maturities of AFG's available for sale fixed maturity securities at September 30, 2025, based on their fair values. Securities with sinking funds are reported at average maturity. Actual maturities may differ from contractual maturities because certain securities may be called or prepaid by the issuers.

Maturity	Securities With Unrealized Gains	Securities With Unrealized Losses
One year or less	3%	13%
After one year through five years	24%	18%
After five years through ten years	19%	6%
After ten years	1%	4%
	47%	41%
CLOs and other asset-backed securities (average life of approximately 3 years)	33%	32%
Residential mortgage-backed securities (average life of approximately 6 years)	20%	27%
	100%	100%

The table below (dollars in millions) summarizes the unrealized gains and losses on fixed maturity securities by dollar amount:

Fixed Maturities at September 30, 2025	Aggregate Fair Value	Aggregate Unrealized Gain (Loss)	Fair Value as % of Cost
Securities with unrealized gains:			
Exceeding \$500,000 (66 securities)	\$ 928	\$ 59	107%
\$500,000 or less (1,004 securities)	5,116	108	102%
	\$ 6,044	\$ 167	103%
Securities with unrealized losses:			
Exceeding \$500,000 (94 securities)	\$ 1,173	\$ (150)	89%
\$500,000 or less (801 securities)	2,794	(71)	98%
	\$ 3,967	\$ (221)	95%

The following table (dollars in millions) summarizes the unrealized losses for all securities with unrealized losses by issuer quality and the length of time those securities have been in an unrealized loss position:

Securities with Unrealized Losses at September 30, 2025	Aggregate Fair Value	Aggregate Unrealized Loss	Fair Value as % of Cost
Investment grade fixed maturities with losses for:			
Less than one year (81 securities)	\$ 512	\$ (4)	99%
One year or longer (701 securities)	3,285	(209)	94%
	\$ 3,797	\$ (213)	95%
Non-investment grade fixed maturities with losses for:			
Less than one year (25 securities)	\$ 42	\$ (1)	98%
One year or longer (88 securities)	128	(7)	95%
	\$ 170	\$ (8)	96%

When a decline in the value of a specific investment is considered to be other-than-temporary, an allowance for credit losses (impairment) is charged to earnings (accounted for as a realized loss). The determination of whether unrealized losses are other-than-temporary requires judgment based on subjective as well as objective factors as detailed in AFG's 2024 Form 10-K under *Management's Discussion and Analysis — "Investments."*

AMERICAN FINANCIAL GROUP, INC. 10-Q**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

Based on its analysis, management believes AFG will recover its cost basis (net of any allowance) in the fixed maturity securities with unrealized losses and that AFG has the ability to hold the securities until they recover in value and had no intent to sell them at September 30, 2025. Although AFG has the ability to continue holding its fixed maturity investments with unrealized losses, its intent to hold them may change due to deterioration in the issuers' creditworthiness, decisions to lessen exposure to a particular issuer or industry, asset/liability management decisions, market movements, changes in views about appropriate asset allocation or the desire to offset taxable realized gains. Should AFG's ability or intent change regarding a particular security, a charge for impairment would likely be required. While it is not possible to accurately predict if or when a specific security will become impaired, increases in the allowance for credit losses could be material to results of operations in future periods. Significant declines in the fair value of AFG's investment portfolio could have a significant adverse effect on AFG's liquidity. For information on AFG's realized gains (losses) on securities, see *"Results of Operations — Realized Gains (Losses) on Securities."*

Uncertainties

Management believes that the areas posing the greatest risk of material loss are the adequacy of its insurance reserves and contingencies arising out of its former railroad and manufacturing operations. See *Management's Discussion and Analysis — "Uncertainties — Asbestos and Environmental-related ("A&E") Insurance Reserves"* in AFG's 2024 Form 10-K.

MANAGED INVESTMENT ENTITIES

Accounting standards require AFG to consolidate its investments in collateralized loan obligation (“CLO”) entities that it manages and owns an interest in (in the form of debt). See *Note A — “Accounting Policies — Managed Investment Entities”* and *Note G — “Managed Investment Entities”* to the financial statements. The effect of consolidating these entities is shown in the tables below (in millions). The “Before CLO Consolidation” columns include AFG’s investment and earnings in the CLOs on an unconsolidated basis.

RESULTS OF OPERATIONS

General

AFG's net earnings, determined in accordance with GAAP, include certain items that may not be indicative of its ongoing core operations. Core net operating earnings excludes realized gains (losses) on securities because such gains and losses are influenced significantly by financial markets, interest rates and the timing of sales. In addition, special charges related to coverage that AFG no longer writes, such as asbestos and environmental exposures, are excluded from core earnings.

The following table (in millions, except per share amounts) identifies non-core items and reconciles net earnings to core net operating earnings, a non-GAAP financial measure. AFG believes core net operating earnings is a useful tool for investors and analysts in analyzing ongoing operating trends and for management to evaluate financial performance against historical results because it believes this provides a more comparable measure of its continuing business.

	Three months ended September 30,		Nine months ended September 30,	
	2025	2024	2025	2024

Net earnings	\$ 2.58	\$ 2.16	\$ 6.50	\$ 7.54

(*) Adjustments to income tax expense related to sales of subsidiaries in prior years.

Net earnings were \$215 million in the third quarter of 2025 compared to \$181 million in the third quarter of 2024 reflecting higher core net operating earnings and net realized gains on securities in the 2025 quarter compared to net realized losses on securities in the 2024 quarter, partially offset by higher special A&E charges in the 2025 quarter compared to the 2024 quarter. Core net operating earnings in the third quarter of 2025 increased \$30 million compared to the third

AMERICAN FINANCIAL GROUP, INC. 10-Q**Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued**

quarter of 2024 reflecting higher underwriting profit and higher net investment income. Net realized gains on securities in the third quarter of 2025 and net realized losses in the third quarter of 2024 include after-tax gains of \$6 million and \$8 million, respectively, resulting from the change in fair value of equity securities that were still held at the balance sheet date.

Net earnings were \$543 million in the first nine months of 2025 compared to \$632 million in the first nine months of 2024 reflecting lower core net operating earnings. Core net operating earnings decreased \$85 million compared to the first nine months of 2024 reflecting lower underwriting profit and lower net investment income from AFG's alternative investment portfolio (partnerships and similar investments and AFG-managed CLOs), partially offset by higher investment income outside of alternative investments. Net realized gains on securities in the first nine months of 2025 and 2024 include after-tax gains of \$19 million and \$20 million, respectively, resulting from the change in fair value of equity securities that were still held at the balance sheet date.

RESULTS OF OPERATIONS — THREE MONTHS ENDED SEPTEMBER 30, 2025 AND 2024

Segmented Statement of Earnings

AFG reports its operations as two segments: (i) Property and casualty insurance ("P&C") and (ii) Other, which includes holding company costs and income and expenses related to the managed investment entities ("MIEs").

AFG's net earnings, determined in accordance with GAAP, include certain items that may not be indicative of its ongoing core operations. The following tables for the three months ended September 30, 2025 and 2024 identify such items by segment and reconcile net earnings to core net operating earnings, a non-GAAP financial measure that AFG believes is a useful tool for investors and analysts in analyzing ongoing operating trends (in millions):

Property and Casualty Insurance Segment — Results of Operations

Performance measures such as underwriting profit or loss and related combined ratios are often used by property and casualty insurers to help users of their financial statements better understand the company's performance. Underwriting profitability is measured by the combined ratio, which is a sum of the ratios of losses and loss adjustment expenses, and commissions and other underwriting expenses to premiums. A combined ratio under 100% indicates an underwriting profit. The combined ratio does not reflect net investment income, other income, other expenses or federal income taxes.

AFG's property and casualty insurance operations contributed \$328 million in pretax earnings in the third quarter of 2025 compared to \$291 million in the third quarter of 2024, an increase of \$37 million (13%), reflecting higher underwriting profit and higher net investment income.

Net investment income	205	195	5%
Other income and expenses, net	(15)	(19)	(21%)
Earnings before income taxes	\$ 328	\$ 291	13%
	Three months ended September 30,		Change
	2025	2024	
Combined Ratios:			
Specialty lines			
Loss and LAE ratio	67.2%	69.5%	(2.3%)
Underwriting expense ratio	25.8%	24.8%	1.0%
Combined ratio	93.0%	94.3%	(1.3%)
Aggregate — including exited lines			
Loss and LAE ratio	67.3%	69.6%	(2.3%)
Underwriting expense ratio	25.8%	24.8%	1.0%
Combined ratio	93.1%	94.4%	(1.3%)

AFG reports the underwriting performance of its Specialty property and casualty insurance business in the following sub-segments: (i) Property and transportation, (ii) Specialty casualty and (iii) Specialty financial.

Historically, AFG reported the results of its internal reinsurance facility (that assumes business from several of AFG's Specialty property and casualty businesses) in an Other Specialty sub-segment. Beginning in 2025, the internal reinsurance results are included within the same sub-segments as the ceding businesses to align with senior management's evolving view of the program. The overall results for AFG's Specialty property and casualty insurance operations are not impacted by this change. Information from prior periods has been recast for consistent presentation.

To understand the overall profitability of particular lines, the timing of claims payments and the related impact of investment income must be considered. Certain "short-tail" lines of business (primarily property coverages) generally have quick loss payouts, which reduce the time funds are held, thereby limiting investment income earned thereon. In contrast, "long-tail" lines of business (primarily liability coverages and workers' compensation) generally have payouts that are either structured over many years or take many years to settle, thereby significantly increasing investment income earned on related premiums received.

Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued
Gross Written Premiums

Gross written premiums ("GWP") for AFG's property and casualty insurance segment were \$3.67 billion for the third quarter of 2025 compared to \$3.75 billion for the third quarter of 2024, a decrease of \$83 million (2%). Detail of gross written premiums is shown below (dollars in millions):

	Three months ended September 30,					
	2025		2024		% Change	
	GWP	%	GWP	%		
Property and transportation	\$ 1,975	54%	\$ 2,107	56%	(6%)	
Specialty casualty	1,337	36%	1,297	35%	3%	
Specialty financial	353	10%	344	9%	3%	
	<u>\$ 3,665</u>	<u>100%</u>	<u>\$ 3,748</u>	<u>100%</u>	<u>(2%)</u>	

Reinsurance Premiums Ceded

Reinsurance premiums ceded ("Ceded") for AFG's property and casualty insurance segment were 39% of gross written premiums for the third quarter of 2025 compared to 37% for the third quarter of 2024, an increase of 2 percentage points. Detail of reinsurance premiums ceded is shown below (dollars in millions):

	Three months ended September 30,					
	2025		2024		Change in % of GWP	
	Ceded	% of GWP	Ceded	% of GWP		
Property and transportation	\$ (924)	47%	\$ (956)	45%	2%	
Specialty casualty	(423)	32%	(380)	29%	3%	
Specialty financial	(66)	19%	(59)	17%	2%	
	<u>\$ (1,413)</u>	<u>39%</u>	<u>\$ (1,395)</u>	<u>37%</u>	<u>2%</u>	

Net Written Premiums

Net written premiums ("NWP") for AFG's property and casualty insurance segment were \$2.25 billion for the third quarter of 2025 compared to \$2.35 billion for the third quarter of 2024, a decrease of \$101 million (4%). Detail of net written premiums is shown below (dollars in millions):

	Three months ended September 30,					
	2025		2024		% Change	
	NWP	%	NWP	%		
Property and transportation	\$ 1,051	47%	\$ 1,151	49%	(9%)	
Specialty casualty	914	40%	917	39%	—%	
Specialty financial	287	13%	285	12%	1%	
	<u>\$ 2,252</u>	<u>100%</u>	<u>\$ 2,353</u>	<u>100%</u>	<u>(4%)</u>	

Net Earned Premiums

Net earned premiums ("NEP") for AFG's property and casualty insurance segment were \$2.01 billion for the third quarter of 2025 compared to \$2.06 billion for the third quarter of 2024, a decrease of \$42 million (2%). Detail of net earned premiums is shown below (dollars in millions):

	Three months ended September 30,					
	2025		2024		% Change	
	NEP	%	NEP	%		
Property and transportation	\$ 935	47%	\$ 989	48%	(5%)	
Specialty casualty	810	40%	797	39%	2%	
Specialty financial	268	13%	269	13%	—%	
	<u>\$ 2,013</u>	<u>100%</u>	<u>\$ 2,055</u>	<u>100%</u>	<u>(2%)</u>	

Gross written premiums for the third quarter of 2025 decreased \$83 million (2%) compared to the third quarter of 2024. Earlier reporting of 2025 crop acreage by insureds impacted the timing of the recording of crop premiums and contributed to the year-over-year third quarter decrease, particularly when compared to later reporting of acreage in 2024. Excluding

the crop business, gross written premiums increased 3% compared to the third quarter of 2024 as a result of premium growth from new business opportunities, increased exposures and a good renewal rate environment. Overall average renewal rates increased approximately 5% in the third quarter of 2025, both including and excluding the workers' compensation businesses.

Property and transportation Gross written premiums decreased \$132 million (6%) in the third quarter of 2025 compared to the third quarter of 2024. This decrease was primarily the result of earlier reporting of 2025 crop acreage, which shifted the timing of reporting of some crop premium from the third quarter to the second quarter. Excluding the crop business, gross written premiums for this group increased 2% compared to the third quarter of 2024, reflecting new business opportunities, a favorable rate environment and increased exposures in the transportation businesses. Average renewal rates increased approximately 6% for this group in the third quarter of 2025. Reinsurance premiums ceded as a percentage of gross written premiums increased 2 percentage points in the third quarter of 2025 compared to the third quarter of 2024, reflecting growth in alternative risk transfer products in the transportation businesses, which cede a higher percentage of premiums than some of the other businesses in the Property and transportation sub-segment and an increase in ceded premiums in the aviation business, partially offset by a decrease in cessions due to the timing of premiums in the crop business.

Specialty casualty Gross written premiums increased \$40 million (3%) in the third quarter of 2025 compared to the third quarter of 2024, reflecting new business opportunities and favorable renewal pricing in several of the targeted markets businesses and an increase in mergers and acquisition activity that contributed to growth in the mergers and acquisitions liability business. This growth was tempered by lower premiums in the excess and surplus, executive liability and social services businesses. Average renewal rates increased approximately 7% for this group in the third quarter of 2025. Excluding the workers' compensation businesses, renewal rates for this group increased approximately 8%. Reinsurance premiums ceded as a percentage of gross written premiums increased 3 percentage points in the third quarter of 2025 compared to the third quarter of 2024, reflecting higher cessions and higher reinsurance costs in the excess liability business and growth in the public sector and mergers and acquisitions liability businesses, both of which cede a larger percentage of premiums than some of the other businesses in the Specialty casualty sub-segment.

Specialty financial Gross written premiums increased \$9 million (3%) in the third quarter of 2025 compared to the third quarter of 2024, due primarily to growth in the financial institutions business and AFG's European operations. Average renewal rates decreased approximately 2% for this group in the third quarter of 2025. Reinsurance premiums ceded as a percentage of gross written premiums increased 2 percentage points in the third quarter of 2025 compared to the third quarter of 2024, reflecting higher cessions in the financial institutions and equipment leasing businesses.

Combined Ratio

The table below (dollars in millions) details the components of the combined ratio for AFG's property and casualty insurance segment:

	Three months ended September 30,		Change	Three months ended September 30,	
	2025	2024		2025	2024
Property and transportation					
Loss and LAE ratio	77.8%	79.4%	(1.6%)		
Underwriting expense ratio	16.3%	17.4%	(1.1%)		
Combined ratio	94.1%	96.8%	(2.7%)		
Underwriting profit				\$ 55	\$ 33
Specialty casualty					
Loss and LAE ratio	66.8%	65.1%	1.7%		
Underwriting expense ratio	29.0%	27.0%	2.0%		
Combined ratio	95.8%	92.1%	3.7%		
Underwriting profit				\$ 33	\$ 63
Specialty financial					
Loss and LAE ratio	31.8%	46.5%	(14.7%)		
Underwriting expense ratio	49.3%	45.8%	3.5%		
Combined ratio	81.1%	92.3%	(11.2%)		
Underwriting profit				\$ 51	\$ 21
Total Specialty					
Loss and LAE ratio	67.2%	69.5%	(2.3%)		
Underwriting expense ratio	25.8%	24.8%	1.0%		
Combined ratio	93.0%	94.3%	(1.3%)		
Underwriting profit				\$ 139	\$ 117
Aggregate — including exited lines					
Loss and LAE ratio	67.3%	69.6%	(2.3%)		
Underwriting expense ratio	25.8%	24.8%	1.0%		
Combined ratio	93.1%	94.4%	(1.3%)		
Underwriting profit				\$ 138	\$ 115

The Specialty property and casualty insurance operations generated an underwriting profit of \$139 million in the third quarter of 2025 compared to \$117 million in the third quarter of 2024, an increase of \$22 million (19%). Higher year-over-year underwriting profit in the Specialty financial and Property and transportation sub-segments was partially offset by lower underwriting profit in the Specialty casualty sub-segment. Overall catastrophe losses were \$23 million (1.2 points on the combined ratio) in the third quarter of 2025 compared to \$90 million (4.4 points) in the third quarter of 2024.

Property and transportation Underwriting profit for this group was \$55 million for the third quarter of 2025 compared to \$33 million for the third quarter of 2024, an increase of \$22 million (67%), reflecting the impact of lower catastrophe losses. Catastrophe losses were \$4 million (0.4 points on the combined ratio) in the third quarter of 2025 compared to \$34 million (3.7 points) in the third quarter of 2024.

Specialty casualty Underwriting profit for this group was \$33 million for the third quarter of 2025 compared to \$63 million for the third quarter of 2024, a decrease of \$30 million (48%). Higher underwriting profit in the executive liability business was more than offset by lower year-over-year underwriting profit in some of the social inflation exposed businesses and, to a lesser extent, the mergers and acquisitions liability and workers' compensation businesses. Catastrophe losses were \$8 million (1.0 points on the combined ratio) in the third quarter of 2025 compared to catastrophe losses of \$17 million (2.0 points) in the third quarter of 2024.

AMERICAN FINANCIAL GROUP, INC. 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued

Specialty financial Underwriting profit for this group was \$51 million for the third quarter of 2025 compared to \$21 million in the third quarter of 2024, an increase of \$30 million (143%). This increase was due primarily to improved results in the financial institutions business, largely attributable to lower year-over-year catastrophe losses, and higher underwriting profitability in the surety and fidelity businesses. Catastrophe losses were \$11 million (4.1 points on the combined ratio) in the third quarter of 2025 compared to \$39 million (14.4 points) in the third quarter of 2024.

Aggregate Aggregate underwriting results for AFG's property and casualty insurance segment includes adverse prior year reserve development of \$1 million in the third quarter of 2025 and \$2 million in the third quarter of 2024 related to business outside of the Specialty group that AFG no longer writes.

AMERICAN FINANCIAL GROUP, INC. 10-Q

Current accident year losses and LAE, excluding catastrophe losses

The current accident year loss and LAE ratio, excluding catastrophe losses, for AFG's Specialty property and casualty insurance operations was 67.2% for the third quarter of 2025 compared to 65.9% for the third quarter of 2024, an increase of 1.3 percentage points.

Property and transportation The 1.4 percentage points increase in the loss and LAE ratio for the current year, excluding catastrophe losses, reflects lower earnings in the crop business, partially offset by improved results in the transportation and ocean marine businesses.

Specialty casualty The 3.6 percentage points increase in the loss and LAE ratio for the current year, excluding catastrophe losses, reflects higher claim severity in the excess and surplus and social services businesses.

AMERICAN FINANCIAL GROUP, INC. 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued

Specialty financial The 3.0 percentage points decrease in the loss and LAE ratio for the current year, excluding catastrophe losses, reflects improved results in the surety and fidelity businesses.

Net prior year reserve development

AFG's Specialty property and casualty insurance operations recorded net favorable reserve development related to prior accident years of \$24 million in the third quarter of 2025 compared to \$17 million in the third quarter of 2024, an increase of \$7 million (41%).

Property and transportation Net favorable reserve development of \$11 million in the third quarter of 2025 reflects lower than anticipated claim severity in the property and inland marine, aviation and ocean marine businesses, partially offset by higher than expected claim severity in the agribusiness operations. Net favorable reserve development of \$14 million in the third quarter of 2024 reflects lower than anticipated claim severity in the ocean marine business and, to a lesser extent, lower than expected claim severity in the agribusiness, property and inland marine and aviation businesses.

Specialty casualty Net favorable reserve development of \$1 million in the third quarter of 2025 reflects lower than expected claim severity in the workers' compensation businesses, partially offset by higher than anticipated claim severity in the excess and surplus and social services businesses. Net adverse reserve development of \$6 million in the third quarter of 2024 reflects higher than anticipated claim severity in the umbrella and excess liability and public sector businesses, partially offset by lower than anticipated claim severity in the workers' compensation businesses.

Specialty financial Net favorable reserve development of \$12 million in the third quarter of 2025 reflects lower than expected claim frequency in the financial institutions business and lower than anticipated claim severity in the surety and fidelity businesses. Net favorable reserve development of \$9 million in the third quarter of 2024 reflects lower than anticipated claim severity in the fidelity business and lower than expected claim frequency in the financial institutions business.

Asbestos and environmental reserves During the third quarter of 2025, AFG completed an in-depth internal review of its asbestos and environmental exposures relating to the run-off operations of its property and casualty insurance segment and its exposures related to former railroad and manufacturing operations and sites. AFG annually conducts a comprehensive review of its asbestos and environmental reserves. In connection with its annual reviews, AFG engages with outside counsel and, as appropriate, engineering and consulting firms and specialty actuarial firms.

During the 2025 internal review, no new trends were identified and recent claims activity was generally consistent with AFG's expectations resulting from its in-depth internal reviews in the prior four years, and the most recent external study in 2020. As a result, and consistent with the internal review in the third quarter of 2024, the 2025 review resulted in no net change to AFG's property and casualty insurance segment's asbestos and environmental reserves. See *Management's Discussion and Analysis — "Uncertainties — Asbestos and Environmental-related ("A&E") Insurance Reserves"* in AFG's 2024 Form 10-K.

At September 30, 2025, the property and casualty insurance segment's insurance reserves include A&E reserves of \$353 million, net of reinsurance recoverables. At September 30, 2025, the property and casualty insurance segment's three-year survival ratios compare favorably with industry survival ratios published by AM Best (as of December 31, 2024, and adjusted for several large industry portfolio transfers) as detailed in the following table:

	Property and Casualty Insurance Reserves			Total A&E
	Three-Year Survival Ratio (Times Paid Losses)			
	Asbestos	Environmental		
AFG (9/30/2025)	22.6	38.5		27.4
Industry (12/31/2024)	8.7	7.5		8.4

In addition, the 2025 and 2024 internal reviews encompassed reserves for asbestos and environmental exposures of AFG's former railroad and manufacturing operations. For a discussion of the \$25 million and \$14 million pretax non-core special charge increases in AFG's liabilities for those operations recorded in the third quarter of 2025 and the third quarter of 2024, respectively, see *"Special A&E Charges"* under *"Results of Operations — Holding Company, Other and Unallocated,"* for the quarters ended September 30, 2025 and 2024.

AMERICAN FINANCIAL GROUP, INC. 10-Q
Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued

Aggregate Aggregate net prior accident years reserve development for AFG's property and casualty insurance segment includes net adverse reserve development of \$1 million in the third quarter of 2025 and \$2 million in the third quarter of 2024 related to business outside of the Specialty group that AFG no longer writes.

Catastrophe losses

AFG generally seeks to reduce its exposure to catastrophes (whether resulting from climate change or otherwise) through individual risk selection, including minimizing coastal and known fault-line exposures, and the purchase of reinsurance. AFG currently has comprehensive property catastrophe reinsurance coverage in place (including a \$70 million per occurrence net retention) for losses up to \$625 million in the vast majority of circumstances. This coverage consists of a combination of \$245 million from traditional reinsurance and \$310 million of coverage through a fully collateralized catastrophe bond. Based on data available at December 31, 2024, management estimates that AFG's exposure to a catastrophic earthquake or windstorm that industry models indicate should statistically occur once in every 500 years is just over 2% of AFG's Shareholders' Equity.

Catastrophe losses of \$23 million in the third quarter of 2025 resulted primarily from storms in multiple regions of the United States. Catastrophe losses of \$90 million in the third quarter of 2024 resulted primarily from Hurricane Helene.

Commissions and Other Underwriting Expenses

AFG's property and casualty commissions and other underwriting expenses ("U/W Exp") were \$520 million in the third quarter of 2025 compared to \$510 million for the third quarter of 2024, an increase of \$10 million (2%). AFG's underwriting expense ratio, calculated as commissions and other underwriting expenses divided by net premiums earned, was 25.8% for the third quarter of 2025 compared to 24.8% for the third quarter of 2024, an increase of 1.0 percentage points. Detail of AFG's property and casualty commissions and other underwriting expenses and underwriting expense ratios is shown below (dollars in millions):

	Three months ended September 30,				Change in % of NEP
	2025		2024		
	U/W Exp	% of NEP	U/W Exp	% of NEP	
Property and transportation	\$ 152	16.3%	\$ 172	17.4%	(1.1%)
Specialty casualty	236	29.0%	215	27.0%	2.0%
Specialty financial	132	49.3%	123	45.8%	3.5%
	<u>\$ 520</u>	<u>25.8%</u>	<u>\$ 510</u>	<u>24.8%</u>	<u>1.0%</u>

Property and transportation Commissions and other underwriting expenses as a percentage of net earned premiums decreased 1.1 percentage points in the third quarter of 2025 compared to the third quarter of 2024. The decrease reflects changes in the mix of business, partially offset by higher costs for software and other expenses associated with certain initiatives in IT security, customer experience and data analytics and the impact of lower earned premiums in the crop operations on the ratio (which has a lower commissions and other underwriting expense ratio than some of the other businesses in the Property and transportation sub-segment).

Specialty casualty Commissions and other underwriting expenses as a percentage of net earned premiums increased 2.0 percentage points in the third quarter of 2025 compared to the third quarter of 2024 reflecting higher costs for software and other expenses associated with certain initiatives in IT security, customer experience and data analytics and an increase in average commission rates in certain excess and surplus businesses resulting from changes in reinsurance treaties.

Specialty financial Commissions and other underwriting expenses as a percentage of net earned premiums increased 3.5 percentage points in the third quarter of 2025 compared to the third quarter of 2024 due primarily to higher costs for software and other expenses associated with certain initiatives in IT security, customer experience and data analytics and higher profit-based commissions to agents in the financial institutions business.

AMERICAN FINANCIAL GROUP, INC. 10-Q
Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued
Property and Casualty Net Investment Income

Net investment income in AFG's property and casualty insurance operations was \$205 million in the third quarter of 2025 compared to \$195 million in the third quarter of 2024, an increase of \$10 million (5%). The average invested assets and overall yield earned on investments held by AFG's property and casualty insurance operations are provided below (dollars in millions):

	Three months ended September 30,		Change	% Change
	2025	2024		
Net investment income:				
Net investment income, excluding alternative investments	\$ 162	\$ 159	\$ 3	2%
Alternative investments	43	36	7	19%
Total net investment income	\$ 205	\$ 195	\$ 10	5%
Average invested assets (at amortized cost)	\$ 16,095	\$ 15,447	\$ 648	4%
Yield on fixed maturities (before investment expenses)	5.12%	5.06%	0.06%	
Yield (net investment income as a % of average invested assets)	5.09%	5.05%	0.04%	

The increase in the property and casualty insurance segment's net investment income for the third quarter of 2025 compared to the third quarter of 2024 reflects the impact of higher returns on AFG's alternative investment portfolio (partnerships and similar investments and AFG-managed CLOs), higher balances of invested assets and higher returns on fixed maturity investments. The property and casualty insurance segment's overall yield on investments (net investment income as a percentage of average invested assets) was 5.09% for the third quarter of 2025 compared to 5.05% for the third quarter of 2024, an increase of 0.04 percentage points. The annualized return earned on alternative investments was 6.2% in the third quarter of 2025 compared to 5.4% in the comparable prior year period.

Property and Casualty Other Income and Expenses, Net

Other income and expenses, net for AFG's property and casualty insurance operations was a net expense of \$15 million for the third quarter of 2025 compared to \$19 million for the third quarter of 2024, an improvement of \$4 million (21%). The table below details the items included in other income and expenses, net for AFG's property and casualty insurance operations (in millions):

	Three months ended September 30,	
	2025	2024
Other income	\$ 6	\$ 2
Other expenses:		
Amortization of intangibles	5	5
Interest expense on funds withheld	11	13
Other	5	3
Total other expenses	21	21
Other income and expenses, net	\$ (15)	\$ (19)

The increase in other income in the third quarter of 2025 compared to the third quarter of 2024 reflects a death benefit received on a company-owned life insurance policy in the third quarter of 2025.

Holding Company, Other and Unallocated — Results of Operations

AFG's net GAAP pretax loss outside of its property and casualty insurance segment (excluding realized gains and losses) totaled \$73 million in the third quarter of 2025 compared to \$60 million in the third quarter of 2024, an increase of \$13 million (22%). AFG's net core pretax loss outside of its property and casualty insurance segments totaled \$48 million in the third quarter of 2025 compared to \$46 million in the third quarter of 2024, an increase of \$2 million (4%).

AMERICAN FINANCIAL GROUP, INC. 10-Q
Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued

The following table details AFG's GAAP and core loss before income taxes from operations outside of its property and casualty insurance segment for the three months ended September 30, 2025 and 2024 (dollars in millions):

	Three months ended September 30,		% Change
	2025	2024	
Revenues:			
Net investment income	\$ 6	\$ 7	(14%)
Other income — P&C fees	23	23	—%
Other income	4	4	—%
Total revenues	33	34	(3%)
Costs and Expenses:			
Property and casualty insurance — loss adjustment and underwriting expenses	9	8	13%
Other expense — expenses associated with P&C fees	14	15	(7%)
Other expenses (*)	39	38	3%
Costs and expenses, excluding interest charges on borrowed money	62	61	2%
Loss before income taxes, excluding realized gains and losses and interest charges on borrowed money	(29)	(27)	7%
Interest charges on borrowed money	19	19	—%
Core loss before income taxes, excluding realized gains and losses	(48)	(46)	4%
Pretax non-core special A&E charge	(25)	(14)	79%
GAAP loss before income taxes, excluding realized gains and losses	\$ (73)	\$ (60)	22%

(*) Excludes pretax non-core special A&E charges of \$25 million and \$14 million in the third quarters of 2025 and 2024, respectively.

Holding Company and Other — Net Investment Income

AFG recorded net investment income on investments held outside of its property and casualty insurance segment of \$6 million in the third quarter of 2025 compared to \$7 million in the third quarter of 2024, a decrease of \$1 million (14%).

Holding Company and Other — P&C Fees and Related Expenses

Summit, a workers' compensation insurance subsidiary, collects fees from a small group of unaffiliated insurers for providing underwriting, policy administration and claims services. In addition, certain of AFG's property and casualty insurance businesses collect fees from customers for ancillary services such as workplace safety programs and premium financing. In the third quarter of 2025 and the third quarter of 2024, AFG collected \$23 million in fees for these services. Management views this fee income, net of the \$14 million in the third quarter of 2025 and \$15 million in the third quarter of 2024 in expenses incurred to generate such fees, as a reduction in the cost of underwriting its property and casualty insurance policies. The expenses related to providing such services are embedded in property and casualty underwriting expenses. Consistent with internal management reporting, these fees and the related expenses are netted and recorded as a reduction of commissions and other underwriting expenses in AFG's segmented results.

Holding Company and Other — Other Income

Other income in the table above includes \$3 million in both the third quarter of 2025 and the third quarter of 2024 in management fees paid to AFG by the AFG-managed CLOs (AFG's consolidated managed investment entities). The management fees are eliminated in consolidation — see the other income line in the Consolidate MIEs column under "Results of Operations — Segmented Statement of Earnings." Excluding amounts eliminated in consolidation, AFG recorded other income outside of its property and casualty insurance segment of \$1 million in both the third quarter of 2025 and the third quarter of 2024.

Holding Company and Other — Other Expenses

Excluding the non-core special A&E charges recorded in the third quarters of 2025 and 2024 discussed below, AFG's holding companies and other operations outside of its property and casualty insurance segment recorded other expenses of \$39 million in the third quarter of 2025 compared to \$38 million in the third quarter of 2024, an increase of \$1 million (3%).

Holding Company and Other — Special A&E Charges

During the third quarters of 2025 and 2024, AFG performed in-depth internal reviews of A&E exposures as discussed under “Asbestos and environmental reserves” under “Results of Operations — Property and Casualty Insurance Segment — Net prior year reserve development.” As a result of the 2025 and 2024 reviews, AFG’s holding companies and other operations outside of its property and casualty insurance operations recorded pretax special non-core A&E charges of \$25 million in the third quarter of 2025 and \$14 million in the third quarter of 2024 to increase liabilities related to the A&E exposures of AFG’s former railroad and manufacturing operations. The charges in both periods reflect changes in the scope and costs of investigation and an increase in estimated remediation costs at a limited number of sites.

Holding Company and Other — Interest Charges on Borrowed Money

AFG’s holding companies and other operations outside of its property and casualty insurance segment recorded interest expense of \$19 million in both the third quarter of 2025 and the third quarter of 2024.

Realized Gains (Losses) on Securities

AFG’s realized gains (losses) on securities were net gains of \$12 million in the third quarter of 2025 compared to net losses of \$2 million in the third quarter of 2024, a change of \$14 million (700%). Realized gains (losses) on securities consisted of the following (in millions):

	Three months ended September 30,	
	2025	2024
Realized gains (losses) before impairment allowances:		
Disposals	\$ (1)	\$ —
Change in the fair value of equity securities	13	10
Change in the fair value of derivatives	1	3
	<u>13</u>	<u>13</u>
Change in allowance for impairments on securities	(1)	(15)
Realized gains (losses) on securities	<u>\$ 12</u>	<u>\$ (2)</u>

The \$13 million net realized gain from the change in the fair value of equity securities in the third quarter of 2025 includes gains of \$11 million on investments in media companies and \$6 million on investments in banks and financing companies, partially offset by losses of \$10 million on investments in manufacturing companies. The \$10 million net realized gain from the change in the fair value of equity securities in the third quarter of 2024 includes gains of \$6 million on investments in banks and financing companies and \$3 million on investments in media companies.

The \$15 million change in allowance for impairments on securities in the third quarter of 2024 relates primarily to an allowance taken on corporate bonds from a single issuer in the financial sector.

Realized Gain on Subsidiaries

During the third quarter of 2025, AFG recorded a \$3 million pretax realized gain resulting from the remeasurement of its existing investment in Radion Holdings, LLC to fair value (see Note B — “Acquisition of Business” to the financial statements) and a \$2 million pretax realized loss on the write-off of certain intangible assets (see Note H — “Goodwill and Other Intangibles” to the financial statements).

Consolidated Income Taxes

AFG’s consolidated provision for income taxes was \$53 million for the third quarter of 2025 compared to \$48 million for the third quarter of 2024, an increase of \$5 million (10%). See Note K — “Income Taxes” to the financial statements for an analysis of items affecting AFG’s effective tax rate.

RESULTS OF OPERATIONS — NINE MONTHS ENDED SEPTEMBER 30, 2025 AND 2024

Segmented Statement of Earnings

AFG reports its operations as two segments: (i) Property and casualty insurance ("P&C") and (ii) Other, which includes holding company costs and income and expenses related to the managed investment entities ("MIEs").

AFG's net earnings, determined in accordance with GAAP, include certain items that may not be indicative of its ongoing core operations. The following tables for the nine months ended September 30, 2025 and 2024 identify such items by segment and reconcile net earnings to core net operating earnings, a non-GAAP financial measure that AFG believes is a useful tool for investors and analysts in analyzing ongoing operating trends (in millions):

	Other		Total	Non-core reclass	GAAP Total

Property and Casualty Insurance Segment — Results of Operations

AFG's property and casualty insurance operations contributed \$847 million in pretax earnings in the first nine months of 2025 compared to \$950 million in the first nine months of 2024, a decrease of \$103 million (11%). The decrease in pretax earnings reflects lower underwriting profit and lower investment income from AFG's alternative investment portfolio (partnerships and similar investments and AFG-managed CLOs), partially offset by higher investment income outside of alternative investments in the first nine months of 2025 compared to the first nine months of 2024.

AMERICAN FINANCIAL GROUP, INC. 10-Q
Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued

The following table details AFG's earnings before income taxes from its property and casualty insurance operations for the nine months ended September 30, 2025 and 2024 (dollars in millions):

	Nine months ended September 30,		% Change

Combined ratio	93.4%	91.9%	1.5%

AFG reports the underwriting performance of its Specialty property and casualty insurance business in the following sub-segments: (i) Property and transportation, (ii) Specialty casualty and (iii) Specialty financial.

Historically, AFG reported the results of its internal reinsurance facility (that assumes business from several of AFG's Specialty property and casualty businesses) in an Other Specialty sub-segment. Beginning in 2025, the internal reinsurance results are included within the same sub-segments as the ceding businesses to align with senior management's evolving view of the program. The overall results for AFG's Specialty property and casualty insurance operations are not impacted by this change. Information from prior periods has been recast for consistent presentation.

Gross Written Premiums

Gross written premiums ("GWP") for AFG's property and casualty insurance segment were \$8.61 billion for the first nine months of 2025 compared to \$8.49 billion for the first nine months of 2024, an increase of \$119 million (1%). Detail of AFG's property and casualty gross written premiums is shown below (dollars in millions):

	Nine months ended September 30,				% Change
	2025		2024		
	GWP	%	GWP	%	
Property and transportation	\$ 4,119	48%	\$ 4,150	49%	(1%)
Specialty casualty	3,467	40%	3,417	40%	1%
Specialty financial	1,023	12%	923	11%	11%
	\$ 8,609	100%	\$ 8,490	100%	1%

Reinsurance Premiums Ceded

Reinsurance premiums ceded ("Ceded") for AFG's property and casualty insurance segment were 34% of gross written premiums in the first nine months of 2025 compared to 33% of gross written premiums for the first nine months of 2024, an increase of 1 percentage point. Detail of AFG's property and casualty reinsurance premiums ceded is shown below (dollars in millions):

	Nine months ended September 30,				Change in % of GWP
	2025		2024		
	Ceded	% of GWP	Ceded	% of GWP	
Property and transportation	\$ (1,746)	42%	\$ (1,712)	41%	1%
Specialty casualty	(1,016)	29%	(944)	28%	1%
Specialty financial	(181)	18%	(155)	17%	1%
	<u>\$ (2,943)</u>	<u>34%</u>	<u>\$ (2,811)</u>	<u>33%</u>	<u>1%</u>

Net Written Premiums

Net written premiums ("NWP") for AFG's property and casualty insurance segment were \$5.67 billion for the first nine months of 2025 compared to \$5.68 billion for the first nine months of 2024, a decrease of \$13 million. Detail of AFG's property and casualty net written premiums is shown below (dollars in millions):

	Nine months ended September 30,				% Change
	2025		2024		
	NWP	%	NWP	%	
Property and transportation	\$ 2,373	42%	\$ 2,438	43%	(3%)
Specialty casualty	2,451	43%	2,473	44%	(1%)
Specialty financial	842	15%	768	13%	10%
	<u>\$ 5,666</u>	<u>100%</u>	<u>\$ 5,679</u>	<u>100%</u>	<u>—%</u>

Net Earned Premiums

Net earned premiums ("NEP") for AFG's property and casualty insurance segment were \$5.24 billion for the first nine months of 2025 compared to \$5.19 billion for the first nine months of 2024, an increase of \$54 million (1%). Detail of AFG's property and casualty net earned premiums is shown below (dollars in millions):

	Nine months ended September 30,				% Change
	2025		2024		
	NEP	%	NEP	%	
Property and transportation	\$ 2,011	38%	\$ 2,061	40%	(2%)
Specialty casualty	2,403	46%	2,371	46%	1%
Specialty financial	826	16%	754	14%	10%
	<u>\$ 5,240</u>	<u>100%</u>	<u>\$ 5,186</u>	<u>100%</u>	<u>1%</u>

Gross written premiums for the first nine months of 2025 increased \$119 million (1%) compared to the first nine months of 2024. The Specialty property and casualty insurance operations continue to achieve year-over-year premium growth as a result of new business opportunities, a good renewal rate environment and increased exposures. Overall average renewal rates increased approximately 5% in the first nine months of 2025. Excluding the workers' compensation businesses, renewal pricing increased approximately 6%.

Property and transportation Gross written premiums decreased \$31 million (1%) in the first nine months of 2025 compared to the first nine months of 2024. This decrease was primarily the result of the impact of lower commodity prices on crop insurance premiums, partially offset by growth in the transportation businesses as a result of increased exposures, new business opportunities and a favorable rate environment. Average renewal rates increased approximately 7% for this group in the first nine months of 2025. Reinsurance premiums ceded as a percentage of gross written premiums increased 1 percentage point in the first nine months of 2025 compared to the first nine months of 2024 reflecting growth in alternative risk transfer and excess liability products in the transportation businesses, which cede a higher percentage of premiums than some of the other businesses in the Property and transportation sub-segment, and higher cessions in the crop business.

Specialty casualty Gross written premiums increased \$50 million (1%) in the first nine months of 2025 compared to the first nine months of 2024, reflecting higher year-over-year premiums in the mergers and acquisitions liability business and growth across several of the targeted markets businesses resulting from new business opportunities, higher rates and strong policy retention. These items were partially offset by lower premiums in the excess and surplus businesses and lower premiums due to a challenging market in the directors' and officers' liability business as well as the continued non-renewal of certain housing and daycare accounts in the social services businesses. Average renewal rates increased approximately 6% for this group in the first nine months of 2025. Excluding overall rate decreases in the workers' compensation businesses, renewal rates for this group increased approximately 8%. Reinsurance premiums ceded as a percentage of gross written premiums increased 1 percentage point in the first nine months of 2025 compared to the first nine months of 2024 reflecting higher cessions, higher reinsurance costs and higher reinstatement premiums paid to reinsurers in the excess liability business and growth in the public sector and mergers and acquisitions liability businesses, both of which cede a larger percentage of premiums than some of the other businesses in the Specialty casualty sub-segment.

Specialty financial Gross written premiums increased \$100 million (11%) in the first nine months of 2025 compared to the first nine months of 2024 due primarily to growth in the financial institutions business and AFG's European operations. Average renewal rates decreased approximately 1% for this group in the first nine months of 2025. Reinsurance premiums ceded as a percentage of gross written premiums increased 1 percentage point in the first nine months of 2025 compared to the first nine months of 2024 reflecting higher cessions in the financial institutions business.

Combined Ratio

The table below (dollars in millions) details the components of the combined ratio and underwriting profit for AFG's property and casualty insurance segment:

	Nine months ended September 30,		Change	Nine months ended September 30,	
	2025	2024		2025	2024
Property and transportation					
Loss and LAE ratio	70.9%	69.9%	1.0%		
Underwriting expense ratio	23.2%	23.6%	(0.4%)		
Combined ratio	94.1%	93.5%	0.6%		
Underwriting profit				\$ 119	\$ 133
Specialty casualty					
Loss and LAE ratio	66.3%	63.4%	2.9%		
Underwriting expense ratio	29.4%	27.7%	1.7%		
Combined ratio	95.7%	91.1%	4.6%		
Underwriting profit				\$ 102	\$ 210
Specialty financial					
Loss and LAE ratio	37.1%	43.1%	(6.0%)		
Underwriting expense ratio	47.7%	46.4%	1.3%		
Combined ratio	84.8%	89.5%	(4.7%)		
Underwriting profit				\$ 126	\$ 79
Total Specialty					
Loss and LAE ratio	63.4%	63.1%	0.3%		
Underwriting expense ratio	29.9%	28.8%	1.1%		
Combined ratio	93.3%	91.9%	1.4%		
Underwriting profit				\$ 347	\$ 422
Aggregate — including exited lines					
Loss and LAE ratio	63.5%	63.1%	0.4%		
Underwriting expense ratio	29.9%	28.8%	1.1%		
Combined ratio	93.4%	91.9%	1.5%		
Underwriting profit				\$ 345	\$ 418

The Specialty property and casualty insurance operations generated an underwriting profit of \$347 million for the first nine months of 2025 compared to \$422 million for the first nine months of 2024, a decrease of \$75 million (18%). Higher year-over-year underwriting profit in the Specialty financial sub-segment was more than offset by lower underwriting profit in the Property and transportation and Specialty casualty sub-segments. Overall catastrophe losses were \$133 million (2.5 points on the combined ratio) in the first nine months of 2025 compared to catastrophe losses of \$161 million (3.1 points), including \$1 million in net reinstatement premiums in the first nine months of 2024.

Property and transportation Underwriting profit for this group was \$119 million for the first nine months of 2025 compared to \$133 million for the first nine months of 2024, a decrease of \$14 million (11%), reflecting the impact of lower year-over-year underwriting profit in the property and inland marine business. Catastrophe losses were \$26 million (1.3 points on the combined ratio) in the first nine months of 2025 compared to \$56 million (2.7 points) in the first nine months of 2024.

Specialty casualty Underwriting profit for this group was \$102 million for the first nine months of 2025 compared to \$210 million for the first nine months of 2024, a decrease of \$108 million (51%), reflecting lower underwriting profit in the directors' and officers' liability, excess and surplus, mergers and acquisitions liability and workers' compensation businesses. Catastrophe losses were \$42 million (1.7 points on the combined ratio) in the first nine months of 2025 compared to catastrophe losses of \$41 million (1.7 points), including \$1 million in net reinstatement premiums in the first nine months of 2024.

Specialty financial Underwriting profit for this group was \$126 million for the first nine months of 2025 compared to \$79 million for the first nine months of 2024, an increase of \$47 million (59%), reflecting favorable prior year reserve development and improved accident year results. Catastrophe losses were \$65 million (7.9 points on the combined ratio) in the first nine months of 2025 compared to \$64 million (8.5 points) in the first nine months of 2024.

Aggregate Aggregate underwriting results for AFG's property and casualty insurance segment includes adverse prior year reserve development of \$2 million in the first nine months of 2025 and \$4 million in the first nine months of 2024 related to business outside of the Specialty group that AFG no longer writes.

Losses and Loss Adjustment Expenses

AFG's overall loss and LAE ratio was 63.5% for the first nine months of 2025 compared to 63.1% for the first nine months of 2024, an increase of 0.4 percentage points. The components of AFG's property and casualty losses and LAE amounts and ratio are detailed below (dollars in millions):

	Nine months ended September 30,				Change in Ratio

Prior accident years development	(54)	(100)	(1.0%)	(1.9%)	0.9%
Current year catastrophe losses including the impact of net reinstatement premiums	133	160	2.5%	3.0%	(0.5%)
Aggregate losses and LAE and ratio	<u>\$ 3,327</u>	<u>\$ 3,274</u>	<u>63.5%</u>	<u>63.1%</u>	0.4%

Current accident year losses and LAE, excluding catastrophe losses

The current accident year loss and LAE ratio, excluding catastrophe losses, for AFG's Specialty property and casualty insurance operations was 62.0% for both the first nine months of 2025 and the first nine months of 2024.

Property and transportation The 0.1 percentage points decrease in the loss and LAE ratio for the current year, excluding catastrophe losses, reflects growth and improved results in the property and inland marine business, which has a lower loss and LAE ratio than some of the other businesses in the Property and transportation sub-segment, improved results in the transportation businesses and the impact of a large property loss in the first quarter of 2024, partially offset by higher claim severity in the aviation business and lower earnings in the crop business.

Specialty casualty The 1.7 percentage points increase in the loss and LAE ratio for the current year, excluding catastrophe losses, reflects higher claim severity in the excess and surplus and social services businesses.

Specialty financial The 1.6 percentage points decrease in the loss and LAE ratio for the current year, excluding catastrophe losses, reflects improved results in the surety and fidelity businesses and growth in the financial institutions business, which has a lower loss and LAE ratio than some of the other businesses in the Specialty financial sub-segment, partially offset by growth in AFG's European operations, which has a higher loss and LAE ratio than some of the other businesses in the Specialty financial sub-segment.

Net prior year reserve development

AFG's Specialty property and casualty insurance operations recorded net favorable reserve development related to prior accident years of \$56 million in the first nine months of 2025 compared to \$104 million in the first nine months of 2024, a decrease of \$48 million (46%).

Property and transportation Net favorable reserve development of \$43 million in the first nine months of 2025 reflects lower than anticipated losses in the crop business, lower than anticipated claim severity in the aviation business and lower than expected claim frequency and severity in the property and inland marine business. Net favorable reserve development of \$94 million in the first nine months of 2024 reflects lower than anticipated losses in the crop business, lower than expected claim severity in the property and inland marine and aviation businesses and lower than anticipated claim severity and frequency in the ocean marine business.

Specialty casualty Net adverse reserve development of \$21 million in the first nine months of 2025 reflects higher than expected claim severity in the excess and surplus, social services, excess liability, public sector and general liability businesses, partially offset by lower than anticipated claim severity in the workers' compensation and executive liability businesses. Net favorable reserve development of \$7 million in the first nine months of 2024 reflects lower than anticipated claim severity in the workers' compensation businesses and lower than expected claim frequency and severity in the executive liability business, partially offset by higher than anticipated claim severity in the umbrella and excess liability businesses, public sector and general liability businesses and higher than expected claim frequency and severity in the social services business.

Specialty financial Net favorable reserve development of \$34 million in the first nine months of 2025 reflects lower than anticipated claim frequency in the financial institutions business and lower than expected claim severity in the surety, fidelity and trade credit businesses. Net favorable reserve development of \$3 million in the first nine months of 2024 reflects lower than anticipated claim frequency and severity in the fidelity and financial institutions businesses and lower than expected claim frequency in the trade credit business, partially offset by higher than anticipated claim severity in the innovative markets and surety businesses.

Aggregate Aggregate net prior accident years reserve development for AFG's property and casualty insurance segment includes net adverse reserve development of \$2 million in the first nine months of 2025 and \$4 million in the first nine months of 2024 related to business outside the Specialty group that AFG no longer writes.

Catastrophe losses

Catastrophe losses of \$133 million in the first nine months of 2025 resulted primarily from California wildfires and storms in multiple regions of the United States. Catastrophe losses of \$160 million in the first nine months of 2024 (before \$1 million in net reinstatement premiums) resulted primarily from Hurricane Helene and storms in multiple regions of the United States.

Commissions and Other Underwriting Expenses

AFG's property and casualty commissions and other underwriting expenses ("U/W Exp") were \$1.57 billion in the first nine months of 2025 compared to \$1.49 billion for the first nine months of 2024, an increase of \$74 million (5%). AFG's underwriting expense ratio was 29.9% for the first nine months of 2025 compared to 28.8% for the first nine months of 2024, an increase of 1.1 percentage points. Detail of AFG's property and casualty commissions and other underwriting expenses and underwriting expense ratios is shown below (dollars in millions):

	Nine months ended September 30,				Change in % of NEP
	2025		2024		
	U/W Exp	% of NEP	U/W Exp	% of NEP	
Property and transportation	\$ 466	23.2%	\$ 487	23.6%	(0.4%)
Specialty casualty	708	29.4%	657	27.7%	1.7%
Specialty financial	394	47.7%	350	46.4%	1.3%
	<u>\$ 1,568</u>	<u>29.9%</u>	<u>\$ 1,494</u>	<u>28.8%</u>	<u>1.1%</u>

Property and transportation Commissions and other underwriting expenses as a percentage of net earned premiums decreased 0.4 percentage points in the first nine months of 2025 compared to the first nine months of 2024 reflecting changes in the mix of business, partially offset by higher costs for software and other expenses associated with certain initiatives in IT security, customer experience and data analytics and the impact of lower earned premiums in the crop operations on the ratio (which has a lower commissions and other underwriting expense ratio than some of the other businesses in the Property and transportation sub-segment).

Specialty casualty Commissions and other underwriting expenses as a percentage of net earned premiums increased 1.7 percentage points in the first nine months of 2025 compared to the first nine months of 2024 reflecting higher costs for software and other expenses associated with certain initiatives in IT security, customer experience and data analytics and an increase in average commission rates in certain excess and surplus businesses resulting from changes in reinsurance treaties.

Specialty financial Commissions and other underwriting expenses as a percentage of net earned premiums increased 1.3 percentage points in the first nine months of 2025 compared to the first nine months of 2024 reflecting higher costs for software and other expenses associated with certain initiatives in IT security, customer experience and data analytics and higher profit-based commissions to agents in the financial institutions business, partially offset by the impact of higher earned premiums in the financial institutions business on the ratio and a change in the mix of business towards products with lower commission rates.

Property and Casualty Net Investment Income

Net investment income in AFG's property and casualty insurance operations was \$554 million in the first nine months of 2025 compared to \$589 million in the first nine months of 2024, a decrease of \$35 million (6%). The average invested assets and overall yield earned on investments held by AFG's property and casualty insurance operations are provided below (dollars in millions):

	Nine months ended September 30,		Change	% Change
	2025	2024		
Net investment income:				
Net investment income, excluding alternative investments	\$ 491	\$ 464	\$ 27	6%
Alternative investments	63	125	(62)	(50%)
Total net investment income	<u>\$ 554</u>	<u>\$ 589</u>	<u>\$ (35)</u>	<u>(6%)</u>
Average invested assets (at amortized cost)	<u>\$ 15,988</u>	<u>\$ 15,389</u>	<u>\$ 599</u>	<u>4%</u>
Yield on fixed maturities (before investment expenses)	<u>5.17%</u>	<u>5.01%</u>	<u>0.16%</u>	
Yield (net investment income as a % of average invested assets)	<u>4.62%</u>	<u>5.10%</u>	<u>(0.48%)</u>	

The decrease in the property and casualty insurance segment's net investment income for the first nine months of 2025 compared to the first nine months of 2024 reflects the impact of lower returns on AFG's alternative investments portfolio (partnerships and similar investments and AFG-managed CLOs), partially offset by higher balances of invested assets

and higher returns on fixed maturity investments. The property and casualty insurance segment's overall yield on investments (net investment income as a percentage of average invested assets) was 4.62% for the first nine months of 2025 compared to 5.10% for the first nine months of 2024, a decrease of 0.48 percentage points. The annualized return earned on alternative investments (partnerships and similar investments and AFG-managed CLOs) was 3.0% in the first nine months of 2025 compared to 6.5% in the prior year period. The impact on rental rates and occupancy from a surge in new apartment supply in certain otherwise strong markets reduced the fair value of certain multi-family investments and tempered the performance of AFG's alternative investment portfolio in the 2025 period.

Property and Casualty Other Income and Expenses, Net

Other income and expenses, net for AFG's property and casualty insurance operations was a net expense of \$52 million for the first nine months of 2025 compared to \$57 million for the first nine months of 2024, an improvement of \$5 million (9%). The table below details the items included in other income and expenses, net for AFG's property and casualty insurance operations (in millions):

	Nine months ended September 30,	
	2025	2024
Other income	\$ 9	\$ 6
Other expenses:		
Amortization of intangibles	15	14
Interest expense on funds withheld	34	38
Other	12	11
Total other expenses	61	63
Other income and expenses, net	\$ (52)	\$ (57)

The increase in other income in the first nine months of 2025 compared to the first nine months of 2024 reflects a death benefit received on a company-owned life insurance policy in the third quarter of 2025.

Holding Company, Other and Unallocated — Results of Operations

AFG's net GAAP pretax loss outside of its property and casualty insurance segment (excluding realized gains and losses) totaled \$171 million in the first nine months of 2025 compared to \$156 million in the first nine months of 2024, an increase of \$15 million (10%). AFG's net core pretax loss outside of its property and casualty insurance segment totaled \$146 million in the first nine months of 2025 compared to \$142 million in the first nine months of 2024, an increase of \$4 million (3%).

AMERICAN FINANCIAL GROUP, INC. 10-Q
Management's Discussion and Analysis of Financial Condition and Results of Operations — Continued

The following table details AFG's GAAP and core loss before income taxes from operations outside of its property and casualty insurance segment for the nine months ended September 30, 2025 and 2024 (dollars in millions):

	Nine months ended September 30,		% Change
	2025	2024	
Revenues:			
Net investment income	\$ 18	\$ 22	(18%)
Other income — P&C fees	71	83	(14%)
Other income	12	12	—%
Total revenues	101	117	(14%)
Costs and Expenses:			
Property and casualty insurance — loss adjustment and underwriting expenses	25	38	(34%)
Other expense — expenses associated with P&C fees	46	45	2%
Other expenses (*)	119	119	—%
Costs and expenses, excluding interest charges on borrowed money	190	202	(6%)
Loss before income taxes, excluding realized gains and losses and interest charges on borrowed money	(89)	(85)	5%
Interest charges on borrowed money	57	57	—%
Core loss before income taxes, excluding realized gains and losses	(146)	(142)	3%
Pretax non-core special A&E charge	(25)	(14)	79%
GAAP loss before income taxes, excluding realized gains and losses	\$ (171)	\$ (156)	10%

(*) Excludes pretax non-core special A&E charges of \$25 million and \$14 million in the first nine months of 2025 and 2024, respectively.

Holding Company and Other — Net Investment Income

AFG recorded net investment income on investments held outside of its property and casualty insurance segment of \$18 million in the first nine months of 2025 compared to \$22 million in the first nine months of 2024, a decrease of \$4 million (18%) reflecting lower income on fixed maturity investments.

Holding Company and Other — P&C Fees and Related Expenses

Summit, a workers' compensation insurance subsidiary, collects fees from a small group of unaffiliated insurers for providing underwriting, policy administration and claims services. In addition, certain of AFG's property and casualty insurance businesses collect fees from customers for ancillary services such as workplace safety programs and premium financing. In the first nine months of 2025, AFG collected \$71 million in fees for these services compared to \$72 million in the first nine months of 2024. Management views this fee income, net of the \$46 million in the first nine months of 2025 and \$45 million in the first nine months of 2024 in expenses incurred to generate such fees, as a reduction in the cost of underwriting its property and casualty insurance policies. In addition, AFG's property and casualty insurance businesses earned \$11 million during the first nine months of 2024 in fees as compensation for providing services related to the administration of crop insurance business generated by Crop Risk Services for its former owner prior to the acquisition date. The expenses related to providing such services are embedded in property and casualty underwriting expenses. Consistent with internal management reporting, these fees and the related expenses are netted and recorded as a reduction of commissions and other underwriting expenses in AFG's segmented results.

Holding Company and Other — Other Income

Other income in the table above includes \$8 million and \$9 million in the first nine months of 2025 and the first nine months of 2024, respectively, in management fees paid to AFG by the AFG-managed CLOs (AFG's consolidated managed investment entities). The management fees are eliminated in consolidation — see the other income line in the Consolidate MIEs column under "Results of Operations — Segmented Statement of Earnings." Excluding amounts eliminated in consolidation, AFG recorded other income outside of its property and casualty insurance segment of \$4 million in the first nine months of 2025 compared to \$3 million in the first nine months of 2024, an increase of \$1 million (33%).

Holding Company and Other — Other Expenses

Excluding the non-core special A&E charges discussed below, AFG's holding companies and other operations outside of its property and casualty insurance segment recorded other expenses of \$119 million in both the first nine months of 2025 and the first nine months of 2024.

Holding Company and Other — Interest Charges on Borrowed Money

AFG's holding companies and other operations outside of its property and casualty insurance segment recorded interest expense of \$57 million in both the first nine months of 2025 and the first nine months of 2024.

Holding Company and Other — Special A&E Charges

See "Holding Company and Other — Special A&E Charges" under "Results of Operations — Holding Company, Other and Unallocated" for the quarters ended September 30, 2025 and 2024 for a discussion of the \$25 million and \$14 million pretax non-core special A&E charges recorded in the third quarter of 2025 and the third quarter of 2024, respectively.

Realized Gains (Losses) on Securities

AFG's realized gains (losses) on securities were net gains of \$17 million in the first nine months of 2025 compared to \$10 million in the first nine months of 2024, an increase of \$7 million (70%). Realized gains (losses) on securities consisted of the following (in millions):

	Nine months ended September 30,	
	2025	2024
Realized gains (losses) before impairment allowances:		
Disposals	\$ (9)	\$ (4)
Change in the fair value of equity securities	32	29
Change in the fair value of derivatives	2	2
	<u>25</u>	<u>27</u>
Change in allowance for impairments on securities	(8)	(17)
Realized gains (losses) on securities	<u>\$ 17</u>	<u>\$ 10</u>

The \$32 million net realized gain from the change in the fair value of equity securities in the first nine months of 2025 includes gains of \$14 million on investments in media companies and \$12 million on investments in banks and financing companies. The \$29 million net realized gain from the change in the fair value of equity securities in the first nine months of 2024 includes gains of \$19 million on investments in banks and financing companies, \$5 million on investments in natural gas companies and \$5 million on investments in healthcare companies.

The \$17 million change in allowance for impairments on securities in the first nine months of 2024 relates primarily to an allowance taken on corporate bonds from a single issuer in the financial sector.

Realized Gain on Subsidiaries

During the third quarter of 2025, AFG recorded a \$3 million pretax realized gain resulting from the remeasurement of its existing investment in Radion Holdings, LLC to fair value (see Note B — "Acquisition of Business" to the financial statements) and a \$2 million pretax realized loss on the write-off of certain intangible assets (see Note H — "Goodwill and Other Intangibles" to the financial statements).

Consolidated Income Taxes

AFG's consolidated provision for income taxes was \$151 million for the first nine months of 2025 compared to \$172 million for the first nine months of 2024, a decrease of \$21 million (12%). See Note K — "Income Taxes" to the financial statements for an analysis of items affecting AFG's effective tax rate.

RECENTLY ADOPTED ACCOUNTING STANDARDS

See Note C — "Segments of Operations" to the financial statements for accounting guidance adopted in the fourth quarter of 2024, which requires enhanced disclosures about significant segment expenses and a description of the composition of other segment expenses by business segment. The title and position of the chief operating decision maker ("CODM") and

an explanation of how the CODM uses the reported measures of segment profit or loss in assessing segment performance and deciding how to allocate resources is also required to be disclosed.

ACCOUNTING STANDARDS TO BE ADOPTED

In December 2023, the FASB issued ASU No. 2023-09 ("ASU 2023-09"), *Improvements to Income Tax Disclosures*. ASU 2023-09 is intended to improve income tax disclosures by requiring (i) consistent categories and greater disaggregation of information in the rate reconciliation presented in both dollar and percentage terms; (ii) the disaggregation of income taxes paid (net of refunds received), income (loss) before income taxes and income taxes by jurisdiction (federal, state and foreign taxes); and (iii) further disaggregation of income taxes paid by any individual jurisdiction equal to or exceeding five percent of total income taxes paid. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024, with early adoption permitted, and is required to be applied prospectively with the option of retrospective application. As of September 30, 2025, AFG has not adopted ASU 2023-09. Management is evaluating the impact of the standard to AFG's income tax disclosures. Since ASU 2023-09 only requires additional disclosure, the adoption of this guidance will not have an impact on AFG's results of operations or financial condition.

In November 2024, the FASB issued ASU No. 2024-03 ("ASU 2024-03"), *Income Statement — Reporting Comprehensive Income — Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*. ASU 2024-03 requires additional information and disaggregation of specified expense categories in the notes to financial statements. ASU 2024-04 is effective for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027, with early adoption permitted and applied either prospectively or retrospectively. As of September 30, 2025, AFG has not adopted ASU 2024-03. Management is evaluating the impact of the standard to AFG's income statement expense disclosures. Since ASU 2024-03 only requires additional disclosures, the adoption of this guidance will not have an impact on AFG's results of operations or financial condition.

ITEM 3. Quantitative and Qualitative Disclosure about Market Risk

As of September 30, 2025, there were no material changes to the information provided in *Item 7A — Quantitative and Qualitative Disclosures about Market Risk* of AFG's 2024 Form 10-K.

Consistent with the discussion in *Item 2 — Management's Discussion and Analysis — "Investments,"* the following table demonstrates the sensitivity of the fair value of AFG's fixed maturity portfolio to reasonably likely changes in interest rates by illustrating the estimated effect on AFG's fixed maturity portfolio that an immediate increase of 100 basis points in the interest rate yield curve would have had at September 30, 2025 (based on the duration of the portfolio, dollars in millions). Effects of increases or decreases from the 100 basis points illustrated would be approximately proportional.

Fair value of fixed maturity portfolio	\$	10,598
Percentage impact on fair value of 100 bps increase in interest rates		(3.0%)
Pretax impact on fair value of fixed maturity portfolio	\$	(318)

ITEM 4. Controls and Procedures

AFG's management, with participation of its Co-Chief Executive Officers and its Chief Financial Officer, has evaluated AFG's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15) as of the end of the period covered by this report. Based on that evaluation, AFG's Co-CEOs and CFO concluded that the controls and procedures are effective. There have been no changes in AFG's internal control over financial reporting during the third fiscal quarter of 2025 that materially affected, or are reasonably likely to materially affect, AFG's internal control over financial reporting.

In the ordinary course of business, AFG and its subsidiaries routinely enhance their information systems by either upgrading current systems or implementing new systems. There have been no changes in AFG's business processes and procedures during the third fiscal quarter of 2025 that have materially affected, or are reasonably likely to materially affect, AFG's internal control over financial reporting.

PART II
OTHER INFORMATION

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities AFG repurchased shares of its Common Stock during 2025 as follows:

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs (*)
First quarter	462,398	\$ 123.86	462,398	5,266,612
Second quarter	319,736	120.59	319,736	4,946,876
Third quarter:				
July	—	\$ —	—	4,946,876
August	6,000	122.81	6,000	4,940,876
September	—	—	—	4,940,876
Total	<u>788,134</u>	<u>\$ 122.53</u>	<u>788,134</u>	

(*) Represents the remaining shares that may be repurchased until December 31, 2025 under the Plan authorized by AFG's Board of Directors in May 2021.

In connection with its stock incentive plans, AFG acquired 42,809 shares (at an average of \$120.66 per share) in the first quarter of 2025, 141 shares (at \$124.75 per share) in the second quarter of 2025, 155 shares (at \$126.92 per share) in July, 243 shares (at an average of \$123.62 per share) in August and 39 shares (at \$139.94 per share) in September.

ITEM 5. Other Information

During the three months ended September 30, 2025, none of the Company's directors or officers adopted, terminated or modified a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as those terms are defined in Regulation S-K, Item 408.

ITEM 6. Exhibits

**AMERICAN FINANCIAL GROUP, INC. 10-Q
SARBANES-OXLEY SECTION 302(a) CERTIFICATIONS**

I, Brian S. Hertzman, certify that:

1. I have reviewed this quarterly report on Form 10-Q of American Financial Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**AMERICAN FINANCIAL GROUP, INC. 10-Q
 CERTIFICATION OF CHIEF EXECUTIVE OFFICERS AND CHIEF FINANCIAL OFFICER
 PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the filing with the Securities and Exchange Commission of the Quarterly Report of American Financial Group, Inc. (the "Company") on Form 10-Q for the period ended September 30, 2025 (the "Report"), the undersigned officers of the Company, certify, pursuant to section 906 of the Sarbanes-Oxley Act of 2002, that to the best of their knowledge:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
